# Learn to recognise the different shells!

**Pharidae**

**Cardiidae**

**Tellinidae**

**Lucinidae**

**Veneridae**

**Mytilidae**

# Conserve our Marinas

Imagine you are in charge of designing a new marina for Singapore. Draw how your new marina would look like, and include the kinds of marine animals you hope to see in the waters as well!

Here's how you can help make our marinas look as beautiful as the one you have designed!

- Participate: Take part in activities such as walks and guided tours to understand more about the biodiversity living in our environment. Join or organise your own litter-picking activity to help keep our surroundings clean.
- Spread the word: Share what you have learnt with your friends and encourage them to learn more about Singapore's biodiversity.
- Be a role model: Bin your trash and reduce, reuse, recycle!
