Half a chilli (red or green)

1 clove of garlic

1 teaspoon of cooking oil

3 drops of dish washing liquid

1 l water

Spray bottle

Blender or grinder

Container for mixing

A Sieve

**What to do?**

1. Blend or pound the chilli and garlic in a blender or grinder.
2. Transfer the paste into a larger container and add water, cooking oil and washing liquid.
3. Mix well.
4. Sieve the liquid and pour the sieved liquid into spray bottles.
5. Spray the garden pest with the pest-potion generously once a day for a week.
6. Check on the garden pest a week later to see if they are still around/alive.
