

Suggested Plant Species for Green Roofs

Name: *Kalanchoe* 'Crenatodaigremontianum'
Family: Crassulaceae
Biodiversity: -

Name: *Portulaca oleracea*
Family: Portulacaceae
Biodiversity: Attracts bees, small insect pollinators

Name: *Kalanchoe pinnata* (Life Plant)
Family: Crassulaceae
Biodiversity: Attracts nectar feeding birds

Name: *Portulaca grandiflora* (Ross Moss)
Family: Portulacaceae
Biodiversity: Attracts Bees, Small insect pollinators

Name: *Pedilanthus tithymaloides* 'Nana' (Jacob's Ladder)
Family: Euphorbiaceae
Biodiversity: Attracts nectar feeding birds

Name: *Portulaca pilosa* (Native Portulaca)
Family: Portulacaceae
Biodiversity: Attracts Bees, small insect pollinators

Name: *Senecio* sp.

Family: Compositae

Biodiversity: Attracts Butterflies, Bees, small insect pollinators

Copyright © NParks Flora&FaunaWeb

Name: *Plectranthus amboinicus*

Family: Lamiaceae

Biodiversity: -

Copyright © NParks Flora&FaunaWeb

Name: *Tradescantia spathacea* (Boat Lily)

Family: Commelinaceae

Biodiversity: -

Copyright © NParks Flora&FaunaWeb

Name: *Aloe tenuior*

Family: Liliaceae

Biodiversity: Attracts nectar feeding birds

Copyright © NParks Flora&FaunaWeb

Name: *Callisia repens*

Family: Commelinaceae

Biodiversity: -

Copyright © NParks Flora&FaunaWeb

Name: *Ceropegia woodii* (String of hearts)

Family: Apocynaceae

Biodiversity: -

Copyright © NParks Flora&FaunaWeb

Name: *Cyanotis cristata*

Family: Commelinaceae

Biodiversity: Attracts bees, small insect pollinators

Copyright © NParks Flora&FaunaWeb

Name: *Drimiopsis maculate*

Family: Asparagaceae

Biodiversity: Attracts bees, small insect pollinators

Copyright © NParks Flora&FaunaWeb

Name: *Haworthia fasciata*

Family: Asparagaceae

Biodiversity: -

NParks Flora&FaunaWeb

Name: *Haworthia limifolia*

Family: Asparagaceae

Biodiversity: -

NParks Flora&FaunaWeb

Name: *Kalanchoe millotii*

Family: Crassulaceae

Biodiversity: -

Name: *Kalanchoe tomentosa* (Panda Plant)

Family: Crassulaceae

Biodiversity: -

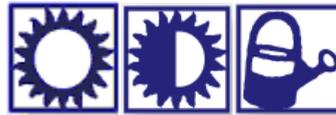

Name: *Sedum mexicanum*
Family: Crassulaceae
Biodiversity: -

Name: *Talinum paniculatum*
Family: Portulacaceae
Biodiversity: Attracts bees, small insect pollinators

Name: *Talinum triangulare*
Family: Portulacaceae
Biodiversity: Attracts bees, small insect pollinators

Name: *Tradescantia pallida*
Family: Commelinaceae
Biodiversity: Attracts bees, small insect pollinators

Name: *Clitoria ternatea* (Blue pea)
Family: Leguminosae
Biodiversity: Attracts bees, small insect pollinators

Name: *Tetracera indica*
Family: Dilleniaceae
Biodiversity: Attracts bees, small insect pollinators, birds

Copyright © NParks Flora&FaunaWeb

Name: *Tristellateia australasiae* (Maiden's Jealousy)

Family: Malphigiaceae

Biodiversity: Attracts bees, small insect pollinators

Copyright © NParks Flora&FaunaWeb

Name: *Telosma cordata*

Family: Apocynaceae

Biodiversity: Attracts bees, small insect pollinators

Copyright © NParks Flora&FaunaWeb

Name: *Ipomoea mauritiana* (Palm leaved morning glory)

Family: Convolvulaceae

Biodiversity: Attracts bees, small insect pollinators

Copyright © NParks Flora & FaunaWeb

Name: *Thunbergia grandiflora* (Skyflower vine)

Family: Acanthaceae

Biodiversity: Attracts Carpenter bees

Copyright © NParks Flora&FaunaWeb

Name: *Asclepias curassavica* (Milkweed)

Family: Apocynaceae

Biodiversity: Butterfly nectar/host plant

Copyright © NParks Flora&FaunaWeb

Name: *Asystasia gangetica* (Common Asystasia)

Family: Acanthaceae

Biodiversity: Butterfly host plant

Copyright © NParks Flora&FaunaWeb

Name: *Asystasia nemorum* (Ranong)
Family: Acanthaceae
Biodiversity: Butterfly host plant

NParks Flora&FaunaWeb

Name: *Bidens pilosa* (Beggartick)
Family: Compositae
Biodiversity: Butterfly nectar plant

Copyright © NParks Flora&FaunaWeb

Name: *Calotropis gigantea* (Giant milkweed)
Family: Apocynaceae
Biodiversity: Butterfly host plant

Name: *Crotalaria mucronata* (Rattle pod)
Family: Leguminosae
Biodiversity: Butterfly nectar/host plant

Copyright © NParks Flora&FaunaWeb

Name: *Crotalaria retusa*
Family: Leguminosae
Biodiversity: Butterfly nectar/host plant

Copyright © NParks Flora&FaunaWeb

Name: *Cuphea hyssopifolia* (Cuphea)
Family: Lythraceae
Biodiversity: Butterfly nectar plant

Name: *Duranta erecta* (Pigeon berry)
Family: Verbenaceae
Biodiversity: Butterfly nectar plant

Name: Ixora Dwarf hybrids (Dwarf orange)
Family: Rubiaceae
Biodiversity: Butterfly nectar plant

Name: Lespedeza bicolor (a.k.a. Shrubby bush clover)
Family: Leguminosae
Biodiversity: Butterfly nectar plant

Name: *Stachytarpheta indica* (Snake weed)
Family: Verbenaceae
Biodiversity: Butterfly nectar plant

Name: *Symphyotrichum laeve* (Smooth Aster)
Family: Compositae
Biodiversity: Butterfly nectar plant

Legend:

Prefers full sun

Prefers semi-shade

Requires moderate amount of water

Prefers little water

Requires abundant water
