

REPUBLIC OF SINGAPORE

THE ANIMALS AND BIRDS ACT (CHAP.7)

**VETERINARY CONDITIONS FOR THE TEMPORARY
IMPORTATION OF HORSES**

I COUNTRY/REGION OF EXPORT

Argentina, Australia, Bahrain, Belgium, Canada, Denmark France, Germany, Hong Kong SAR, Ireland, Italy, Japan, Macao SAR, Malaysia, New Zealand, Republic of Korea, United Arab Emirates, United Kingdom, United States of America and Uruguay.

II PURPOSE

Temporary for racing, polo, equestrian competition and shows.

III IMPORT LICENCE

Each consignment of horses shall be accompanied by a valid import licence issued by the National Parks Board/Animal & Veterinary Service (NParks/AVS).

IV VETERINARY CERTIFICATION

Each consignment of horses shall be accompanied by current individual international equine passports recognized by the respective national racing associations and a veterinary health certificate dated not more than forty-eight (48) hours prior to export and signed or endorsed by the competent Veterinary Authority of the country/region of export describing the age, breed, sex, colour, markings or other points of identification, and the passport number and the name and address of the premises of origin of each horse, and certifying to the effect that:

- (i) the country has been free from **African horse sickness** for the last two (2) years prior to the date of export, and no vaccination is permitted in the country against this disease,
- (ii) the country has been free from **Venezuelan equine encephalomyelitis** for the last two (2) years prior to the date of export, and no vaccination is permitted in the country against this disease **OR** no case of Venezuelan equine encephalomyelitis has occurred in the country for the last two (2) years prior to the date of export,
- (iii) the country has been free from **Eastern** and **Western equine encephalomyelitis** for the last two (2) years prior to the date of export, and no vaccination is permitted in the country against these diseases **OR** the horse has been vaccinated within 12 months but not within 30 days of export against Eastern and Western equine encephalomyelitis with vaccines approved by the Veterinary Authority of the country/region of export and NParks/AVS,
- (iv) **Glanders** is a notifiable disease in the country/region of export and no case has been reported during
the past 3 years
OR Glanders is a notifiable disease in the country/region of export and no case has been reported for a period of at least 6 months and a surveillance programme is in place demonstrating the absence of the disease in accordance with WOAHA recommendations
OR the horse was tested for **glanders** by the complement fixation test with negative result(s) within 30 days of export,
- (v) the country has been free from **surra** for the last 12 months prior to date of export **OR** the horse was tested for **Trypanosoma evansi** by enzyme-linked immunosorbent assay (ELISA) or card agglutination test (CATT) with negative results within 30 days of export,
- (vi) the country has been free from **dourine** for the last 12 months prior to date of export **OR** the horse was tested for **Trypanosoma equiperdum** by the complement fixation test with negative results within 15 days of export,
- (vii) the country has been free from **equine infectious anemia** for the last 12 months prior to date of export **OR** the horse was tested for equine infectious anemia by the immunodiffusion (Coggin's) test with negative results within 30 days of export,
- (viii) the country has been free from **equine viral arteritis** for the last 12 months prior to date of export **OR** the horse was tested for equine viral arteritis by the serum neutralisation tests with negative

- results or with stable or declining antibody titres at dilution of 1 in 4, twice 14 days apart within 30 days of export,
- (ix) the country has been free from **equine piroplasmosis** for the past 12 months **OR** the horse was subjected to a fluorescent antibody test (IFAT) or competitive enzyme-linked immunosorbent assay (C-ELISA) for equine piroplasmosis with negative results within 30 days of export,
 - (x) (a) the country has been free from **rabies** in the past two (2) years **OR**
 - (b) (1) during the 6 months prior to export, the horse has not suffered from or been exposed to nor been in premises infected with rabies, and
 - (2) the horse has not been vaccinated against rabies **OR** was vaccinated against rabies using an approved vaccine not less than 30 days and not more than 12 months prior to export,
 - (xi) no case of **Hendra-virus infection** has been reported in horses in the countries of residence for the last 3 months prior to export
OR
if **Hendra-virus infections** were reported in horses in the countries of residence for the last 3 months prior to export,
 - (a) In the case of an unvaccinated horse, the horse will be subjected to a pre-export quarantine for 21 days continuously prior to export, under veterinary supervision and has been tested for Hendra virus infection by ELISA test with negative results within 14 days prior to export,
 - (b) In the case of a vaccinated horse, the vaccinations are up-to-date (proof of vaccination must be submitted, which could be in the form of a vaccination certificate and registration on a vaccination database), the horse will be subjected to a pre-export quarantine for 21 days continuously prior to export, under veterinary supervision and did not show any clinical signs of Hendra Virus infection during the 21 day pre-export quarantine,
 - (xii) no case of **Nipah virus infection** has been reported in horses in the country for the last 2 years prior to the date of export **OR** no case of **Nipah virus infection** has been reported in horses in the country for the past 6 months, or such other period as may be specified by NParks/AVS, prior to the date of export and the horse has undergone two (2) weeks' pre-export isolation at premises approved by NParks/AVS and tested during pre-export isolation for Nipah virus infection with negative results prior to export,
 - (xiii) During the 60 days prior to export, the horse has not suffered from or been exposed to nor been in premises infected with **Equine Influenza (EI)**, and was vaccinated against EI according to manufacturer's recommendation with an inactivated or recombinant vaccine approved by the country/region of export, between 21 and 90 days before shipment either with a primary course or a booster,
 - (xiv) all tests were carried out in a laboratory approved by the Veterinary Authority of the country/region of export and NParks/AVS, using WOAHA prescribed methodologies,
 - (xv) the horses had been resident in any of the country or countries listed in this Regulations continuously for at least sixty (60) days immediately prior to export.
 - (xvi) during the 60 days prior to export, the horse has not suffered from or been exposed to nor been in premises infected with any condition or disease including the following: equine infectious anemia, equine viral encephalomyelitis, horse pox, scabies, anthrax, glanders, dourine, surra, strangles, epizootic lymphangitis, ulcerative lymphangitis, equine rhinopneumonitis, equine viral arteritis, equine piroplasmosis, equine influenza, Vesicular Stomatitis, Getah virus infection, Hendra virus infection, Nipah virus infection, West Nile virus infection or any other disease of horses notifiable in the country/region of export.
 - (xvii) the horse was treated with an approved long-acting and broad spectrum parasiticide effective against ticks within 14 days of export,
 - (xviii) the horse had not been vaccinated with any vaccine within 30 days of export **OR** the horse had been vaccinated within 30 days with a vaccine or vaccines approved by NParks/AVS (submit name and purpose of vaccine and date of vaccination),
 - (xix) the horse had been examined and was found clinically healthy and free from external parasites and any clinical signs of infectious or contagious disease at time of export.

V DECLARATION FROM MASTER/CAPTAIN OF SHIP/AIRCRAFT

Each consignment of horses shall be accompanied by a signed declaration from the master/captain of the ship/aircraft in which the horses were carried stating that:

- (i) the horses had been embarked or emplaned in the country/region of export (to state the name of the country) and had not been landed at any intermediate port (unless it is an approved stopover ports at Part XII) during the voyage or flight to Singapore,
- (ii) no horse from another country was carried in the ship/aircraft during the time that the horses to which such declaration refers were on board the ship/aircraft (unless prior approval obtained from NParks/AVS),
- (iii) no fodder from another country was carried in the ship/aircraft during the time that the horses to which such declaration refers were on board the ship/aircraft (unless prior approval obtained from NParks/AVS). The use of hay or straw bedding during transport is prohibited; treated wood shavings, sterilised peat and soft boards may be used.
- (iv) the interior of the aircraft carrying the horses had been sprayed with an approved insecticide just prior to its departure from the country/region of export, the approved intermediate port(s), and on landing in Singapore (only applicable for exporting countries and stopover(s) at approved intermediate port(s) in countries which cannot certify country freedom against Venezuelan, Western and Eastern equine encephalomyelitis, trypanosomiasis, equine infectious anemia or piroplasmiasis).
- (v) in a case where the aircraft has stopped at an intermediate port not approved by NParks/AVS as a stopover port but for refuelling purpose, the cargo hold where the horses are carried in the aircraft had not been opened during the entire time of its refuelling stop and the interior of the aircraft carrying the horses had been sprayed with an approved insecticide just prior to its arrival at the port and also prior to departure from the port.

VI ISOLATION

- (i) Horses from one country shall have no contact with horses from other countries other than during race for the first 14 days after import, unless otherwise approved by NParks/AVS.
- (ii) Horses from Argentina, Canada, United Arab Emirates, United States of America and Uruguay shall be housed in vector-protected stables and an insect repellent effective for the duration of removal from the stables shall be thoroughly applied to the horses prior to their removal from the stables under official veterinary supervision for the first 14 days. Stables shall be treated with a long-acting insecticide to cover the period of residence of the horses in Singapore.
- (iii) Facilities for isolation shall be on equine establishments approved by NParks/AVS.
- (iv) Training and race in the night in the first 14 days of import may be permitted under official veterinary supervision subject to the above conditions in this Section being satisfied and NParks/AVS's approval.

VII APPLICATION FOR IMPORT LICENCE

The owner or his agent must apply for the import licence by submitting an online application through GoBusiness Licensing Portal (<https://www.gobusiness.gov.sg/licences>) 30 days prior to the arrival of animals. The applicant must indicate the route of travel, including any stopover or refueling stops, at the time of application.

VIII NOTIFICATION OF ARRIVAL

The importer or agent must make an appointment for the inspection of the horse(s) by submitting an online booking request via Intelligent Food Approval & Safety Tracking System (iFAST) at <https://ifast.sfa.gov.sg/eserviceweb/>. Please ensure your NParks/AVS Import licence no. & flight details are ready and fill in the required information on your application. Inspections without any prior appointment will be charged \$80.00/hour or part thereof during office hours.

IX VETERINARY INSPECTION

On arrival at the port of disembarkation in Singapore, the horses and documents (Import Licence, Veterinary Health Certificate and Captain's Declaration) shall be presented to and examined by an authorised Veterinary Officer. If the consignment of horses is found to be healthy and documents are in order, the horses shall be allowed entry into Singapore.

X PENALTY

All imports must comply fully with the conditions of the Import Licence and Veterinary Conditions, unless prior written approval has been obtained from NParks/AVS. Any consignment of animals or related products that do not meet the requirements may be detained, returned to the country/region of export or destroyed at the discretion of the Director-General, Animal Health and Welfare. In addition, the importer

shall be guilty of an offence under the Animals and Birds Act Section 8(1) and shall be liable on conviction to a fine not exceeding \$10,000 or to imprisonment for a term not exceeding 12 months or to both.”

XI FEES

Import Licence - See Fee Schedule: Attachment-2

XII OTHER REQUIREMENTS/INFORMATION

- (i) Stopover of aircraft at all Australian airports, all Canadian airports, Amsterdam, Anchorage, Bahrain, Basel, Berlin, Brussels, Chicago, Copenhagen, Dubai, Dublin, Frankfurt, Hong Kong SAR, Honolulu, London, Los Angeles, Luxembourg, Manchester, New York, Paris, San Francisco, Taipei, Tokyo, Vienna and Zurich may be permitted but no horse is allowed to leave the aircraft.
- (ii) All mares destined for Singapore must not be pregnant. Any pregnant mare as well as in-contact material may be detained in quarantine or returned to the country of origin at the importer's/exporter's expense.
- (iii) Any expenditure incurred in the process of importation of the horse shall be borne by the owner or his agent.
- (iv) If the animal dies or is destroyed while under the custody of NParks/AVS, NParks/AVS will not be liable for any compensation.
- (v) Application for import from any other country other than those listed in (I) should be made to NParks/AVS through the competent veterinary authority of the country/region of export at least 6 months prior to date of intended export to Singapore. The competent veterinary authority should also submit relevant details on its veterinary infrastructure, organisational structure and manpower strength, professional qualifications of its veterinary services personnel, veterinary laboratory diagnostic capabilities, national disease surveillance programmes, point of entry control capabilities, compulsorily notifiable diseases and current status of WOAH-listed diseases in the country.
- (vi) Horses must be re-exported within 14 days after completion of the international race.
- (vii) Horses should be transported in accordance with latest recommendations of the WOAH Animal Health Code and International Air Transport Association Live Animal Regulations, unless otherwise agreed by NParks/AVS.
- (viii) Regulations and fees are subject to change without notice notwithstanding the issuance of a licence with NParks/AVS.

Please note:

Section 72 of the Animals and Birds Act states that:

“(1) Any action taken under the provisions of this Act or of any rule, order or direction made or given thereunder in respect of any animal, bird, carcase, article, building or conveyance shall be at the risk of the owner thereof.

(2) No liability shall attach to the Board or to any officer thereof in respect of any expense, loss, damage or delay arising in or from the lawful exercise of the powers under this Act.

Section 78 of the Animals and Birds Act states that:

“No suit or other legal proceedings shall lie against the Board, the Director-General or any authorised officer, police officer, officer of customs or any other person acting under the direction of the Board or Director-General for anything which is in good faith done in the execution or purported execution of this Act.”

SECTION 1 IDENTIFICATION OF THE HORSE

Name	Year of Birth	Sex	Colour	Breed/ Description/ Passport number

SECTION 2 ORIGIN OF THE HORSE

Name and address of exporter/owner*:
**Please delete accordingly*

Name and address of premise of origin of horse:

SECTION 3 DESTINATION OF THE HORSE

Country of destination:

Name and address of consignee:

NParks/AVS Import Permit Number:

Nature and identification:
of Means of Transport

SECTION 4 MOVEMENT INFORMATION OF THE HORSE

I, _____, an official veterinarian authorised by the competent veterinary authority of _____ (the exporting country/place) to certify horses for export, hereby declare that:

- a) The country/place of Permanent/Usual Residency for the horse is: _____
- b) The horse has been temporarily imported into the country/countries/place(s) listed below for the racing purposes since leaving its country/place of permanent/usual residency according to the following sequence:

Country/Place	Entry Date	Exit Date

- c) all of the country/countries/place(s) listed in Section 4 (a) and (b) are included in the list of the scheduled countries/places as stated in "Veterinary Conditions for the Temporary Importation of Horses".

SECTION 5 CERTIFICATION

I hereby certify the following (please tick, write Not Applicable (NA) or indicate the date of testing/vaccination in the column on the right where appropriate):

I	The country has been free from African horse sickness for the last two (2) years prior to the date of export, and no vaccination is permitted in the country against this disease.	
II	The country has been free from Venezuelan equine encephalomyelitis for the last two (2) years prior to the date of export, and no vaccination is permitted in the country against this disease OR	
	no case of Venezuelan equine encephalomyelitis has occurred in the country for the last two (2) years prior to the date of export.	
III	The country has been free from Eastern and Western equine encephalomyelitis for the last two (2) years prior to the date of export, and no vaccination is permitted in the country against these diseases OR	
	the horse has been vaccinated within 12 months but not within 30 days of export against Eastern and Western equine encephalomyelitis with vaccines approved by the Veterinary Authority of the country/region of export and NParks/AVS.	Date of vaccination:
IV	Glanders is a notifiable disease in the country/region of export and no case has been reported during the past 3 years	
	OR Glanders is a notifiable disease in the country/region of export and no case has been reported for a period of at least 6 months and a surveillance programme is in place demonstrating the absence of the disease in accordance with WOAHA recommendations	
	OR the horse was tested for glanders by the complement fixation test with negative result(s) within 30 days of export.	Date of test:
V	The country has been free from surra for the last 12 months prior to date of export OR	
	the horse was tested for Trypanosoma evansi by enzyme-linked immunosorbent assay (ELISA) or card agglutination test (CATT) with negative results within 30 days of export.	Date of test:

VI	The country has been free from dourine for the last 12 months prior to date of export OR the horse was tested for <i>Trypanosoma equiperdum</i> by the complement fixation test with negative results within 15 days of export.	Date of test:
VII	The country has been free from equine infectious anemia for the last 12 months prior to date of export OR	
	the horse was tested for equine infectious anemia by the immunodiffusion (Coggin's) test with negative results within 30 days of export.	Date of test:
VIII	The country has been free from equine viral arteritis for the last 12 months prior to date of export OR	
	the horse was tested for equine viral arteritis by the serum neutralisation tests with negative results or with stable or declining antibody titres at dilution of 1 in 4, twice 14 days apart within 30 days of export.	Date of test:
IX	The country has been free from equine piroplasmosis for the past 12 months OR	
	the horse was subjected to a fluorescent antibody test (IFAT) or competitive enzyme-linked immunosorbent assay (C-ELISA) for equine piroplasmosis with negative results within 30 days of export.	Date of test:
X	The country has been free from rabies in the past two (2) years OR	
	<ol style="list-style-type: none"> 1. during the 6 months prior to export, the horse has not suffered from or been exposed to nor been in premises infected with rabies, and 2. the horse has not been vaccinated against rabies* OR was vaccinated against rabies using an approved vaccine not less than 30 days and not more than 12 months prior to export* <p><i>*Please delete accordingly</i></p>	Date of vaccination (if applicable):
XI	no case of Hendra-virus infection has been reported in horses in the countries of residence for the last 3 months prior to export OR	
	<p>if Hendra-virus infections were reported in horses in the countries of residence for the last 3 months prior to export,</p> <ol style="list-style-type: none"> a) In the case of an unvaccinated horse, the horse will be subjected to a pre-export quarantine for <u>21 days</u> continuously prior to export, under veterinary supervision and has been tested for Hendra virus infection by ELISA test with negative results within <u>14 days</u> prior to export, b) In the case of a vaccinated horse, the vaccinations are up-to-date (proof of vaccination must be submitted, which could be in the form of a vaccination certificate and registration on a vaccination database), the horse will be subjected to a pre-export quarantine for <u>21 days</u> continuously prior to export, under veterinary supervision and did not show any clinical signs of Hendra Virus infection during the 21 day pre-export quarantine. 	<p>Date of test:</p> <p>Or</p> <p>Date of vaccination:</p>
XII	No case of Nipah virus infection has been reported in horses in the country for the last 2 years prior to the date of export OR	
	no case of Nipah virus infection has been reported in horses in the country for the past 6 months, or such other period as may be specified by NParks/AVS, prior to the date of export and the horse has undergone two (2) weeks' pre-export isolation at premises approved by NParks/AVS and tested during pre-export isolation for Nipah virus infection with negative results prior to export.	Date of test:
XIII	During the 60 days prior to export, the horse has not suffered from or been exposed to nor been in premises infected with Equine Influenza (EI) , and was vaccinated against EI according to manufacturer's recommendation with an inactivated or recombinant vaccine approved by the country/region of export, between 21 and 90 days before shipment either with a primary course or a booster.	
XIV	All tests were carried out in a laboratory approved by the Veterinary Authority of the	

	country/region of export and NParks/AVS, using WOAHA prescribed methodologies.	
XV	The horses had been resident in any of the country or countries listed in these Regulations continuously for at least sixty (60) days immediately prior to export.	
XVI	During the 60 days prior to export, the horse has not suffered from or been exposed to nor been in premises infected with any condition or disease including the following: equine infectious anemia, equine viral encephalomyelitis, horse pox, scabies, anthrax, glanders, dourine, surra, strangles, epizootic lymphangitis, ulcerative lymphangitis, equine rhinopneumonitis, equine viral arteritis, equine piroplasmiasis, equine influenza, Vesicular Stomatitis, Getah virus infection, Hendra virus infection, Nipah virus infection, West Nile virus infection or any other disease of horses notifiable in the country/region of export.	
XVII	The horse was treated with an approved long-acting and broad spectrum parasiticide effective against ticks within 14 days of export.	
XVIII	The horse had not been vaccinated with any vaccine within 30 days of export OR	
	the horse had been vaccinated within 30 days with a vaccine or vaccines approved by NParks/AVS (submit name and purpose of vaccine and date of vaccination). Name of vaccine: _____ Purpose of vaccine: _____ Date of vaccination: _____	
XIX	The horse had been examined and was found clinically healthy and free from external parasites and any clinical signs of infectious or contagious disease at time of export.	

I, _____ (Name in BLOCK LETTERS),
the undersigned veterinarian, being an Official government veterinarian of
_____ (the country/region of export), certify in respect of the horse described above
that I have no reason to doubt the truthfulness of the information given in Sections 1 to 5 and am satisfied to the best
of my ability that the horse certified above meets with the requirements for importation into Singapore.
