

CONSERVE & CELEBRATE OUR NATURAL HERITAGE

MR BENNY KOH CHIN SEAH believes in reconnecting young people with nature and is always looking for opportunities to educate his students on the wonders of biodiversity. Many students under his guidance have become more environmentally conscious, and can better appreciate flora and fauna around them.

THE LEARNING FOREST @ SINGAPORE BOTANIC GARDENS

Students volunteered as station guides for the launch of the new extension – Keppel Discovery Wetlands at the Learning Forest.

UBIN DAY

UBIN FRUIT ORCHARD

FESTIVAL OF BIODIVERSITY

Students participated in biodiversity conservation work, under the mentorship of staff from Pulau Ubin. They assisted in the study of birds and bats in the field and went around tagging trees while collecting valuable information on trees' health. They shared their findings and learning experiences with guests of honour and members of the public.

RIFLE RANGE NATURE PARK

Students participated in NParks Forest Restoration Action Plan, where they removed invasive weeds and planted native tree species.
