The Landscape Industry Association Singapore (LIAS), a representative organisation for local landscape professionals and companies, announced in October 2011 the winners of the LIAS Awards of Excellence 2011. The biennial event showcased outstanding works of landscape professionals and their related counterparts in Singapore.

In its fourth edition, the LIAS Awards of Excellence 2011 shortlisted 51 winners out of 97 entries. On-site evaluation was carried out by a panel of judges from practitioners across the industry as well as academics from the polytechnics and universities. The judging criteria included “uniqueness in concept expressed in creative designs and harmony of design to the surrounding landscape”.

The award provided a platform for the industry to showcase and promote its role in the preservation and beautification of landscape in an eco-friendly, sustainable built environment while raising standards of professionalism.
