Grow With Us

50 YEARS OF GREENING SINGAPORE

ANNUAL REPORT 2013/2014
The seeds of Singapore’s greening campaign were sown in 1963, when former Prime Minister Mr Lee Kuan Yew planted a Mempat tree at Farrer Circus. Fifty years later on 16 June 2013, he set a Rain Tree sapling firmly in the ground at Holland Village Park, marking the start of a series of activities to commemorate our greening journey.

As we look back at the greening efforts over the past 50 years, we can see the dramatic transformation that has taken place in Singapore’s landscape as we transitioned from those nascent years to a Garden City and now to our City in a Garden.

Going forward, we will continue to be guided by the vision of our pioneering leaders to make Singapore a distinctive and attractive place to live in. We will continue to build on the foundations that have been laid over the past five decades and we invite everyone – individuals, communities and corporations – to Grow With Us.
Singapore’s commitment to preserving and nurturing our natural heritage spans five decades, beginning with the idea that a beautiful green city would be an intangible asset to the country for residents and visitors alike. In 2013, the National Parks Board (NParks) commemorated the fruition of this idea, recognising past contributions and engaging people from all walks of life as partners in continuing this legacy.

Our 50th Anniversary commemorative dinner on 26 July 2013 brought together over 200 guests, whose dedication and efforts have shaped Singapore as we know it today. The event was a fitting tribute to their efforts, as Minister of National Development Mr Khaw Boon Wan thanked our guests against the beautiful sunset backdrop of the Singapore Botanic Gardens, currently in consideration for UNESCO World Heritage Site status.

Protecting our natural heritage is our responsibility to future generations. As an urban city-state, Singapore has unique challenges in ensuring that our biodiversity continues to thrive. Last year, we completed Southeast Asia’s first ecological corridor, Eco-link@BKE, to bridge the Bukit Timah and Central Catchment nature reserves across the Bukit Timah Expressway. This project was only possible through collaboration with agencies such as the Land Transport Authority and many academic and community stakeholders.

Such partnership is central to our continued evolution as a City in a Garden. Our Nature Ways project enables communities to take pride and responsibility in the greening of their own neighbourhoods. Launched in January 2014, the Tengah Nature Way was developed with members of 21 local community groups, schools, and religious and commercial organisations who helped to plant beautiful shrubs and plants along the roads. Other Nature Ways have already been completed in Admiralty, Tampines, Yishun, Punggol, Tanglin and Kheam Hock. By the end of next year, NParks aims to complete 60km of Nature Ways for everyone to enjoy.

Over the past fifty years, we have established over 300 parks across the island. More than just beautiful green areas, these are community spaces where friendships are made, birthdays are celebrated and families spend time together. To this end, we completed the first elevated park connector linking Ayer Rajah to Clementi and Buona Vista, and the Choa Chu Kang Park Extension last year. We hope that families and residents will explore these connectors and their parks, discovering the charms of each.

The job of NParks is more than maintaining plants, designing streetscapes and protecting our local flora and fauna. Our job is to respond to the needs of Singapore and its residents for the next fifty years, seeding commitment and enthusiasm for Singapore’s natural heritage for future generations. Thank you for your support in cherishing, nurturing and building Singapore as a City in a Garden.
**Members of the Board**

**As of September 2014**

**Mrs Christina Ong**
Chairman

Mrs Ong is Managing Director of Club 21 Pte Ltd, a lifestyle retailer with more than 422 stores worldwide. A leading fashion entrepreneur, Mrs Ong is a recipient of The Italian Fashion Hall of Fame Award 1995 and the Italian Award of Cavaliere De La R. Mrs Ong is also a noted luxury hotelier, managing a stable of niche properties under the COMO Hotels & Resorts (Asia) Pte Ltd brand.

**Mrs Deborah Ong**
Deputy Chairman

Mrs Ong is a partner at PricewaterhouseCoopers Singapore. She has more than 20 years of public accounting experience, providing audit and advisory services to a wide range of clients. Besides leading a portfolio of the firm’s largest clients, Mrs Ong has been appointed as the firm’s Risk & Quality Leader. She was previously the firm’s Human Capital Leader.

**Kenneth Er**
Board Member & Chief Executive Officer

Mr Er began his career in the National Parks Board (NParks) and has been involved in the planning, implementation and management of parks and streetscapes in the city ever since. In 2003, he was seconded to the Ministry of National Development, where he oversaw policies and was actively involved in the review of legislations pertaining to parks and greenerie infrastructure, agri-veterinary issues and building and construction. Mr Er was subsequently appointed General Manager at Gardens by the Bay, where he played a pivotal role in developing the Gardens from concept to form. He was also concurrently Assistant Chief Executive Officer (Corporate Development & Services) at NParks. He was appointed Chief Operating Officer of Gardens by the Bay in 2012. Mr Er is presently the Chief Executive Officer of NParks.

**Mrs Koh-Lim Wen Gin**
Board Member

Mrs Koh-Lim was the Chief Planner and Deputy Chief Executive of the Urban Redevelopment Authority (URA) from 2001 to 2008. Her career with URA spanned over three decades, during which she played a key role in the strategic planning and design of Singapore’s city and urban landscape, and the conservation of Singapore’s built heritage. She is currently Independent Director of Keppel Land Limited, Board Member of Sentosa Development Corporation, Chairman of Sentosa Cove Resort Management Ltd, a member of several statutory board advisory panels and Senior Advisor to several private firms. In 2009, Mrs Koh-Lim was conferred the Meritorious Service Award by the Government of Singapore.

**Dr Malone-Lee Lai Choo**
Board Member

Dr Malone-Lee is a Director of the Centre for Sustainable Cities, School of Design and Environment at the National University of Singapore (NUS). Prior to joining NUS, Dr Malone-Lee worked in the areas of strategic planning, urban planning policies and heritage conservation. Her current research interest is on urban planning policies and strategies for sustainable cities, focusing on the benchmarking of cities, densification, city livability and resource optimisation. She is a part-time consultant with the United Nations Economic and Social Commission for Asia and the Pacific (ESCAP).

**Ngiam Shih Chun**
Board Member

Mr Ngiam is the Deputy Secretary for Industry in the Ministry of Trade and Industry, where he oversees policies to develop Singapore’s economy. He was formerly the Special Assistant to Emeritus Senior Minister in the Prime Minister’s Office. Prior to that, he was the Director of Community Relations and Engagement at the Ministry of Community Development, Youth and Sports (MCYS) where he promoted community bonding and racial and religious harmony, and helped to develop volunteering and philanthropy. He was also concurrently the Director of the Social Sector Planning Unit. Mr Ngiam has also served in the Ministry of Home Affairs and the Ministry of Education.

**Seah Kian Peng**
Board Member

Deputy Speaker of Parliament and a Member of Parliament for the Marine Parade GRC. Mr Seah is also the Chief Executive Officer (Singapore) of NTUC FairPrice Co-operative Limited. In addition, he is the Chairman of the Government Parliamentary Committee for Social and Family Development, and also a board member of the International Co-operative Alliance and co-chair of the Social Enterprise Association of Singapore. Mr Seah has worked in both the public and private sectors, and serves in various public and community organisations. He is also a Fellow of the Singapore Institute of Directors.

**Andreas Sohmen-Pao**
Board Member

Mr Sohmen-Pao is the Chief Executive Officer of BW Maritime Pte Ltd and Chairman of BW LPG Ltd. He is a non-executive director of BW Offshore Limited, The Hongkong and Shanghai Banking Corporation Ltd, The Esplanade Co. Ltd and Singapore Maritime Foundation, and is a member of the Singapore Sports Council and the Singapore Symphony Orchestra Council. Mr Sohmen-Pao previously worked for Goldman Sachs International in London and served from 2006 to 2012 as a director of the Maritime and Port Authority of Singapore. He holds an honours degree (BA Hons) from Oxford University and an MBA from Harvard Business School.

**Warren Fernandez**
Board Member

Mr Fernandez is the Editor of The Straits Times. He has been with the Singapore Press Holdings for almost two decades, during which he served in many roles including political correspondent, news editor, deputy political editor, foreign editor and deputy editor. Mr Fernandez graduated with First Class Honours from Oxford University, where he read Philosophy, Politics and Economics, and also has a Master’s Degree in Public Administration from Harvard University’s John F. Kennedy School of Government. He has served on a number of public committees such as the Remaking Singapore Committee, the Singapore 21 Committee, Compass, and the Cost Review Committee and used to sit on the boards of the Civil Service College and National Environment Agency. Currently, he is a board member of the National Heritage Board.

**Dr Suriiani Suratman**
Board Member

Dr Suriiani is Senior Lecturer at the Department of Malay Studies, National University of Singapore. She is trained as a social anthropologist. Her teaching and research covers areas on Malay culture and society. She has conducted research in Singapore, Malaysia and the Philippines. She is currently Deputy Chairman of the Malay Heritage Foundation Board of Directors. She is also a board member of The National Art Gallery, Singapore. In addition, Dr Surani is a potter and has done commissioned creative pieces for Temasek Holdings, The Sentosa Resort and Spa, National Heritage Board, Patron of the Year Award and Singapore International Foundation.

**Mrs Ong is a partner at PricewaterhouseCoopers Singapore. She has more than 20 years of public accounting experience, providing audit and advisory services to a wide range of clients. Besides leading a portfolio of the firm’s largest clients, Mrs Ong has been appointed as the firm’s Risk & Quality Leader. She was previously the firm’s Human Capital Leader.**

Green With Us

50 Years of Greening Singapore was not just a commemoration of the progress that we have made in building up our green infrastructure; it was also a recognition of the immense community effort that helped ensure the success of these greening efforts. From across the wide spectrum of Singapore’s society, individuals, communities and corporations stepped forward to help nurture green spaces, conserve our biodiversity and enhance the living environment for all Singaporeans.
Let’s continue on our greening journey together

Commemorating 50 Years of Greening

Former Prime Minister Mr Lee Kuan Yew had a vision to make Singapore a distinctive and attractive place in which to live. In 1963, he planted a Mempat tree at Farrer Circus, which signified the start of the greening campaign. On 16 June 2013, Mr Lee planted a Rain Tree at Holland Village Park, marking 50 Years of Greening Singapore and commemorating the community’s involvement in these efforts.

The event was one of many commemorative activities planned for the year. NParks collaborated with more than 100 partners to engage more Singaporeans than ever before. The aim was to inspire more people, especially the younger generation, to get involved in the greening movement and contribute towards nation-building through the greening of Singapore. To inculcate an appreciation of greenery among the young, some 43,000 Primary 3 pupils from 183 schools were introduced to planting early in the year under the “Every Child A Seed” initiative, which was supported by the Garden City Fund and the Ministry of Education. Each pupil received a seed-planting kit and experienced first-hand the efforts and time needed to care for plants.

To commemorate 50 Years of Greening Singapore, NParks worked with more than 100 partners on a series of activities, events and programmes reaching out to more than 2 million people, including schools, corporations, tenants and members of the public.

Reaching out through Commemorative Planting of 1,963 trees

Mr Lee’s planting at Holland Village Park also marked the launch of the 1963 Commemorative Tree Planting activity. This was well supported by more than 5,000 volunteers from corporate organisations, schools, non-government organisations and the media who planted 1,963 trees between June and November 2013.
Singapore’s first mass tree-planting that involved students from primary to tertiary levels took place on 20 August 2013, when more than 100 students and educators from various educational institutions came together to plant 50 trees at Dairy Farm Nature Park.

Corporates also came out in strong support, with organisations such as the Association of Banks in Singapore, HSBC and Lianhe Zaobao incorporating the Commemorative Tree Planting into their own anniversary celebrations. Other corporate supporters included StarHub Ltd and United Parcel Service, whose staff participated in tree plantings at various locations.

To date, more than 300 organisations have participated in tree plantings under the Garden City Fund’s Plant-A-Tree (PAT) programme since its inception in 2007. More than 15,000 trees have been planted and over 24,000 individuals reached through PAT.

**Chronicling the Greening Journey through Videos and Books**

In print, in video or on air, different media were used to depict Singapore’s transformation towards becoming City in a Garden over the past five decades. A 200-page book “Living in a Garden: The Greening of Singapore” was published with the sponsorship of Dairy Farm Singapore, EnGro Corporation, Far East Organization, Temasek Holdings, Tuas Power and Woh Hup Pte Ltd, while a video “iremememberParks” was compiled to feature some of Singapore’s most iconic parks and the reflections of people who visited them.

Media Development Authority and Channel NewsAsia gave their full support for the production of a documentary entitled “Nature of a City”, which was broadcast by MediaCorp in August 2013. The programme garnered a viewership of about 176,000.

To reach out to children, NParks published a storybook entitled “Secrets of the Swamp”, an adventure tale reminding children to do their part in conserving the natural heritage of Singapore. The National Library Board also put up Green Book Displays in eight public libraries in June and July. To create greater awareness of Singapore’s greening journey amongst the general public.

**Making a Trip down Memory Lane**

Going from the young to the young at heart, the roving installation “Playsets of Yesteryears” was installed in Raffles Place Park to reach out to office workers. It later made its way to East Coast Park, Bishan-Ang Mo Kio Park and the Singapore Botanic Gardens, giving members of the public an opportunity to relive childhood memories of playing in the parks. The installation, which featured popular play equipment from the 1970s and 1980s and exhibition panels depicting the history of some of the more popular parks in Singapore, was well received, and NParks received requests to extend the programme or make it a permanent feature.

A similar sense of nostalgia was felt at a Commemorative Dinner which was organised for more than 200 partners and pioneers who played an integral part in Singapore’s greening journey. The event took place on 26 July 2013, against the backdrop of Swan Lake at the Singapore Botanic Gardens.

**Collaborating with Corporate Partners**

In other efforts to raise awareness of the greening movement, NParks partnered SingPost to produce and launch biodegradable commemorative stamps which contained seeds for planting. There was also support from Moove Media, which promoted the greening of Singapore and the Singapore Botanic Gardens on large wall murals, light boxes and glass panels at 16 Northeast Line MRT stations and the Ang Mo Kio and Toa Payoh Bus Interchanges. The displays garnered an estimated 19 million views over nine weeks.

Over at Orchard Road, NParks partnered Clarins and TANGS to put up large horticultural displays at TANGS Orchard, reaching out to over 30,000 shoppers and passers-by with key messages about Singapore’s biodiversity. Green displays were also exhibited at Istana Orchard, and My Art Space at Istana Park organised a green-themed Juried Art Competition.
NParks’ volunteer programme started in the early 1990s with 50 people. Today, we are encouraged to count more than 1,000 active volunteers as our friends and partners.

50 Years of Greening Singapore was also the theme of the inaugural exhibition at the Singapore Botanic Gardens Heritage Museum and City Developments Limited (CDL) Green Gallery which opened in November 2013. Supported by CDL in cash and kind, the new attractions drew over 12,000 visitors within a month of the opening.

Other partners commemorated Singapore’s greening milestone through food and exercise. More than 70 food and beverage, retail and recreation outlets in parks rolled out special promotions to mark 50 Years of Greening Singapore. The Straits Times held its inaugural Run in the Park in Punggol in August 2013, and Big Splash partnered Mizuno for the Big Splash Mizuno Wave Run 2013 at East Coast Park in September. In commemorating 50 Years of Greening Singapore, we worked hand-in-hand with public agencies, corporate organisations, sponsors, media, and schools and expanded our partner network, enabling us to reach out to more than 2 million people through all these activities.

Recognising the Role of Volunteers

On 30 November 2013, Prime Minister Lee Hsien Loong planted the 1,963rd tree in the 1963 Commemorative Tree Planting initiative. At the event, which marked the end of a year-long series of activities to commemorate 50 Years of Greening Singapore, the Prime Minister presented 10-year service awards to NParks volunteers. In 2013, the number of active NParks volunteers crossed the 1,000 mark, a 25 per cent increase over the previous year. More than half the new volunteers were involved in the Comprehensive Marine Biodiversity Survey, signifying growing interest in volunteering for biodiversity conservation.

Volunteers were also behind the introduction of the new Nature Guided Walk at the Istana, which was launched on 1 February 2014 during the Istana Open House.

Geography was one of April’s favourite subjects when she was in school. “The power and beauty of nature never ceased to amaze me,” she said. In 2002, she decided to take a more active role in environmental activities and started volunteering with NParks at Bukit Timah Nature Reserve.

Passionate about issues related to deforestation and global warming, April takes part in tree-planting and reforestation efforts and has roped in some of her friends to help as well. Last year, she participated in the Comprehensive Marine Biodiversity Survey where she helped to identify, sort and record specimens at St John’s Island. She has also volunteered for various outreach and education activities for the past 12 years. “Educating the young is important,” she said. “Teach them to pay it forward.”

“I hope that we can instil a stronger sense of belonging and ownership amongst Singaporeans, so that everyone will learn to love the greenery and cleanliness, come forward to voice their concerns over the environment, and walk the talk.”
Caring for the Living Environment

Another group of volunteers are the Community in Bloom ambassadors who regularly contribute time, effort and resources to foster the love for gardening amongst members of the community. During the launch of Clean and Green Singapore (CGS) 2014 on 26 October 2013, PM Lee presented awards to six ambassadors in recognition of their efforts.

The Community in Bloom programme (CIB) aims to promote a gardening culture among Singaporeans by encouraging and facilitating gardening efforts by the community. In 2013, more than 80 community gardens were created, bringing the total number to about 700. These were spread among public and private residential estates, educational institutions and organisations.

To recognise NParks’ contributions in setting up CIB’s first community garden in Mayfair Park Estate and helping to create a vibrant and happy community, we were presented with the inaugural David Naidu Award by the Mayfair Park Neighbourhood Committee.

Extending our Reach through Park Activities

In other outreach and commemorative activities, NParks and our partners engaged adults and children in various Earth Day celebrations on 22 April 2013. To bring nature closer to Singaporeans who prefer to stay indoors, four cameras were installed at Sungei Buloh Wetland Reserve, allowing the public to view live footage of animals in a nature reserve via their computers or mobile devices. A number of organisations, including Sharp, Timberland and Gap, also partnered NParks to drive various Earth Day-related initiatives.

“Our first ST Run in Punggol and Sengkang allowed many of our readers to experience first hand the tremendous job that NParks has done in building up the park connector network. Many told us they had discovered, or rediscovered, a stunningly beautiful part of our island.”

Warren Fernandez, Editor, The Straits Times

Our Park Connector Network (PCN) provided another rich avenue for community outreach and engagement. Under the Garden City Fund’s PCN Enhancement Works initiative, members of the Hewlett Packard Alumni & Friends group, Temasek Polytechnic Adventure Club and Tampines Cycling Club came together to help pave cement footpaths at Bedok Reservoir Park. Members of Hewlett Packard Alumni also raised funds in support of small enhancement works for PCN.

Bedok Reservoir Park was one of the segments covered during a Discover Singapore Ride, which is aimed at providing participants with an opportunity to explore Singapore on bicycle via the Park Connector Network. Other rides in the series covered the Geylang Park Connector as well as the western part of Singapore.
Partnering Corporates in Other Green Initiatives

Corporate partners also worked with NParks on initiatives involving volunteer welfare organisations and institutions as well as public wellness. StarHub Ltd supported the setting up of the Seeds of Hope Edible Garden at the Singapore Boys’ Hostel while RICOH Asia Pacific Pte Ltd supported the EcoHaven Garden at MINDS’ Lee Kong Chian Gardens School. The Ascott supported the Knowledge Garden at Jamiiyah Children’s Home and Timberland Singapore stepped in to set up a herbs and edibles garden within Breast Cancer Foundation’s premises.

In another corporate collaboration, a fitness corner was opened at Simei Park Connector in March 2014 to encourage more Singaporeans to get active and exercise their way to better health. Sponsored by Coca-Cola Singapore and developed in consultation with the Exercise Is Medicine Singapore programme under Changi General Hospital’s Sports Medicine Centre, this new fitness corner features equipment that will cater to a broad spectrum of users.

“From this project, I learnt how to grow a Roselle plant from its seed. It was fun and enjoyable. I wish that I can plant a durian seed in my neighbourhood park.”

Bryston Chue, student, South View Primary School on “Every Child A Seed” programme

---

**Strengthening our Student and Educator Outreach**

Between 24 July and 2 August 2013, more than 350 students from about 40 secondary schools, junior colleges and institutions participated in the Singapore Geospatial Challenge organised by Singapore Land Authority in collaboration with NParks, the National Heritage Board and the Preservation of Monuments Board. The event was organised to raise awareness of Singapore’s rich historical and green heritage.

Students from a record-setting 237 schools in Singapore also planted more than 630 trees in support of Green Wave, a worldwide biodiversity campaign held annually on 22 May. This represented an increase of more than 25 per cent in the number of participating schools compared to the previous year.

In other school-related activities, pupils from Tampines North Primary School’s Eco Club underwent training to learn how to conduct guided walks at Tampines Eco Green, while teaching staff from Broadrick Secondary School participated in the inaugural session of Caring for the Orchids at the Geylang Park Connector in August. All 500 Primary 5 pupils from the Gifted Education Programme in nine schools visited parks and nature reserves in May as part of the Annual Learning Journey organised by NParks and the Ministry of Education. The places they visited included HortPark, Kent Ridge Park, Labrador Nature Reserve, the Southern Ridges and Sungei Buloh Wetland Reserve.

Nature also provided inspiration for some 150 art students involved in the Singapore Biennale Artists-in-Schools project. As part of our Community in Nature efforts, NParks guided participating students on field trips across selected nature reserves and parks in Singapore.

Under the new Nature Cares programme which aims to connect corporations, students and community through nature-related activities, outings were organised for the elderly, intellectually challenged students and hearing-impaired children. The beneficiaries were accompanied by adult and student volunteers. NParks also showcased Nature Cares at the 2nd National Secondary School Leaders Conference organised by the Ministry of Education and the National Youth Council on 17 April 2013. The 2013 Nature Cares programme was made possible with support from Bunge, Credit Suisse, Keppel Group, PricewaterhouseCoopers and Singapore Power.
As the administrator for Keppel Care Foundation, Sam got involved with Nature Cares when the Foundation decided to fund the project, which brings together corporations, children and beneficiary organisations through nature-related activities. However, he wanted to do more than just assist with the donation process, and so he decided to play a more active role by becoming a volunteer himself.

When he first started in 2013, Sam felt apprehensive, especially when it came to reaching out to the beneficiaries. “I had limited exposure to volunteer work and I was not sure what to expect,” he recalled. “I guess the challenge was for me to face my inner fears and overcome them by doing even more over time.”

Today, Sam not only works with NParks to coordinate the Nature Cares programme, he also actively recruits Keppel staff for the activities and makes it a point to be present for all the sessions which range from guiding park tours to plant potting.
Cherish With Us

The steady build-up of Singapore’s green infrastructure over the past five decades has enabled biodiversity to take root and flourish in our City in a Garden. We have also worked closely with the landscape industry to strengthen their capabilities and grow the talent pool. These efforts, together with the close involvement of the community, have helped to enrich Singapore’s natural heritage and create a vibrant, living legacy for future generations of Singaporeans to cherish and enjoy.
Let’s make space for nature to flourish

CHERISH OUR BIODIVERSITY

Extending our Nature Ways

Throughout the years, biodiversity has continued to be a key focus. As part of a collaborative effort to bring biodiversity closer to the neighbourhood, more than 20 corporate and community partners have come together to green up the 13km Tengah Nature Way, which is the longest Nature Way in Singapore to date. They include Yuhua Zone 5 RC, NatSteel, Almukminin Mosque, Institute of Technical Education College West, Community in Bloom Ambassadors, and students from nine schools including Hillgrove Secondary School, Kranji Secondary School and Swiss Cottage Secondary School who will be monitoring the birds and butterflies along the Nature Way.

Under the Tengah Nature Way @ South West initiative which was unveiled by NParks and South West Community Development Council on 16 February 2014, community gardens will be planted with bird- and butterfly-attracting plants that will help create a green route for these animals to travel between the Bukit Timah Nature Reserve, Central Catchment Nature Reserve and the Western Catchment (SAFTI Live-Firing Area).

Thriving butterfly and bird populations in other parts of Singapore indicate that our biodiversity conservation efforts are on track. Over the past year, Oriental Pied Hornbill chicks have been spotted in specially-constructed nest boxes at various green spaces such as Pasir Ris Park and Sungei Buloh Wetland Reserve. Another nest box has also been installed at Nathan Road, with the sponsorship of Kajima Overseas Asia Plt Ltd and the support of residents from nearby Bishopsgate Residences.

Monitoring Singapore’s Marine Biodiversity

Surveys and scientific research help provide an indicator of the progress Singapore has made in conserving its natural heritage. They also highlight the importance of nurturing healthy ecosystems and promoting the appreciation of Singapore’s rich biodiversity to future generations.

The five-year Comprehensive Marine Biodiversity Survey (CMBS), which was launched in 2010, crossed a significant milestone with the completion of the second marine biodiversity expedition in June 2013. The three-week expedition, carried out by NParks and the National University of Singapore's Tropical Marine Science Institute (TMaSi), involved some 50 volunteers and about 50 scientists, including 25 renowned biodiversity experts from 10 countries. During the expedition, a biodiversity survey was conducted of reef habitats and the seafloor from shallow subtidal areas to deeper waters in the Singapore Strait and the southern islands of Singapore. The first marine expedition, which was held in October 2012, surveyed the Johor Straits.

In addition, during field trips conducted as part of a Bryozoans and Hydroids Workshop organised by TMaSi, 15 new records were made of intertidal, mangrove and freshwater bryozoans.

Since the launch of the CMBS, some 60,000 specimens have been collected through surveys conducted in mudflats, sea beds and reef habitats. From these, over 200 new records for Singapore were made, about 10 species were rediscovered, and over 100 species were identified as possibly new to science. Corporate sponsors for CMBS include Asia Pacific Breweries, Care-for-Nature Trust Fund, Keppel Corporation, Shell companies in Singapore and The Air Liquide Group, which have donated more than $1 million to the National University of Singapore and the Garden City Fund for the survey.

Monitoring Singapore’s Marine Biodiversity

Surveys and scientific research help provide an indicator of the progress Singapore has made in conserving its natural heritage. They also highlight the importance of nurturing healthy ecosystems and promoting the appreciation of Singapore’s rich biodiversity to future generations.

The five-year Comprehensive Marine Biodiversity Survey (CMBS), which was launched in 2010, crossed a significant milestone with the completion of the second marine biodiversity expedition in June 2013. The three-week expedition, carried out by NParks and
A little girl once “hijacked” a guided tour that Tat Ming was conducting at Fort Canning Park. “She would interrupt me every time she saw a squirrel, and so our nature tour became a squirrel-spotting game that day,” he recalled.

Then there was the elderly man who let Tat Ming in on the secret to raising clever children – get them to study under a Banyan tree!

These were just two of the many interesting people that Tat Ming has met in the 10 years he has been volunteering with NParks.

The banker, who does guiding two or three times a month, loves to share with visitors, especially residents, about the lesser known bits of nature that one can find here. He specialises in tours such as Heritage on the Hill, the Fort Canning Spice Trail and Trees of the Fort.

An elderly man who let Tat Ming in on the secret to raising clever children – get them to study under a Banyan tree. He specialises in tours such as Heritage on the Hill, the Fort Canning Spice Trail and Trees of the Fort.

Bird Monitoring Bears Fruit

Bird ringing activities conducted by NParks over the years have also borne fruit. In December 2013, a Mongolian Plover (Charadrius mongolus) which was ringed in Singapore in October 2012 was spotted at the Inner Gulf of Thailand. In another sighting, a Whimbrel, believed to be about 20 years old, was spotted again at Sungei Buloh Wetland Reserve in January 2014, 19 years after it was first ringed here in 1995.

NParks’ corporate partners have also stepped forward to support the bird ringing initiative. Nine sessions of the HSBC Bird Banding Awareness activity were held during the year. They involved volunteers from HSBC and Central Catchment Nature Reserve, as well as NParks staff, and were aimed at highlighting the importance of bird banding as a monitoring activity to help in conservation management of our nature reserves.

On 6 July 2013, NParks also conducted an island-wide Heron Watch, 10 years after the first snapshot survey captured the population status and distribution of herons and egrets throughout Singapore.

Celebrating Biodiversity with the Community

Community efforts to conserve Singapore’s natural heritage were celebrated at the Festival of Biodiversity, which took place in July 2013. Organised by NParks and the Biodiversity Roundtable, a group of over 20 key representatives from various sectors of the nature community, the two-day festival was supported by Kingsmen, Kose, Toshiba and VivoCity, and attracted some 10,000 visitors.

During its opening, President Tony Tan Keng Yam launched a new book “Living In A Garden”, showcasing Singapore’s development into a City in a Garden, and a special set of biodegradable stamps affixed with seeds to commemorate 50 Years of Greening Singapore.

NParks also announced a new initiative, Greening Schools for Biodiversity, which enables schools to assess and enrich the biodiversity in their school compounds.

A little girl once “hijacked” a guided tour that Tat Ming was conducting at Fort Canning Park. “She would interrupt me every time she saw a squirrel, and so our nature tour became a squirrel-spotting game that day,” he recalled.

Then there was the elderly man who let Tat Ming in on the secret to raising clever children – get them to study under a Banyan tree!

These were just two of the many interesting people that Tat Ming has met in the 10 years he has been volunteering with NParks.

Championing Conservation Efforts Internationally

NParks remains committed to working with the global community in biodiversity conservation. It co-chairs the Technical Committee on Coastal and Marine Environment to spearhead the implementation of Integrated Urban Coastal Management (IUCM) in Singapore. IUCM is a proactive planning and management framework for sustainable development of marine and coastal areas within an urban context. A Memorandum of Understanding (MOU) with the Partnerships in the Environmental Management for the Seas of East Asia (PEMSEA) was signed on 18 November 2013 that established Singapore as a PEMSEA Regional IUCM Demonstration Site and Learning Centre. Recognised as a positive example in IUCM, NParks is working on showcasing Singapore’s experiences and best practices internationally.

At the 11th Singapore-Thailand Civil Service best practices internationally. Working on showcasing Singapore’s experiences and IUCM is proactive planning and management framework for sustainable development of marine and coastal areas within an urban context. A Memorandum of Understanding (MOU) with the Partnerships in the Environmental Management for the Seas of East Asia (PEMSEA) was signed on 18 November 2013 that established Singapore as a PEMSEA Regional IUCM Demonstration Site and Learning Centre. Recognised as a positive example in IUCM, NParks is working on showcasing Singapore’s experiences and best practices internationally.

NParks has also embarked on a five-year project to account for the carbon stock and carbon flux in vegetation and land use in Singapore. Coordinated by the National Biodiversity Centre, this will form part of Singapore’s biennial reporting of our national greenhouse gas inventory to the United Nations Climate Change. The project, which is undertaken by Austrian consortium ANRICA (Austrian Natural Resources Management and International Cooperation Agency), began in November 2013.

Growing the Talent Pool

To build on the success of Singapore’s greening efforts over the past 50 years, NParks continues to develop a pool of highly trained students for careers in the landscape industry. On 7 September 2013, NParks, Institute of Technical Education (ITE) and Landscape Industry Association (Singapore) (LIAS) signed an MOU to award 50 scholarships worth $600,000 over five years. The scholarships, which are funded by the Garden City Fund and LIAS, will go to students pursuing ITE’s Nitec in Facility Technology (Landscaping Services) course. This was announced at Green Thumbs 2013, an annual event which celebrates the progress and achievements of the landscape industry.

To create awareness of Continuous Education and Training as well as career opportunities in the landscape industry, NParks’ Centre for Urban Greenery and Ecology (CUGE) Career Centre participated in the Discover the Service in You Career Fair on 15 November. The fair was organised by the South West CDC in collaboration with the Singapore Workforce Development Agency. Under CUGE’s invitation, two landscape employers, Prince’s Landscape & Construction Pte Ltd and Swee Bee Contractor Pte Ltd, also participated in the event.

“ My hope is that this new scholarship programme for ITE students will help to plant a seed in their minds which will germinate into their becoming Landscape Professionals of the next generation.”

Mr John Tan, Chairman, Landscape Industry Association (Singapore) on the MOU signed to award 50 scholarships to ITE students.

BUILD UP OUR LANDSCAPE INDUSTRY

Giving Local Landscape Companies a Productivity Boost

Close collaboration with the landscape industry has been another hallmark of Singapore’s greening journey. NParks launched a new $3.9 million Landscape Productivity Grant scheme in September 2013 to help local landscape companies defray the cost of equipment purchase for projects such as landscape design, construction and maintenance. The grant is an initiative under the $12 million Landscape Productivity Roadmap, a national effort to enhance productivity, raise capabilities and professionalism, and to restructure operations in the landscape sector, which employed some 7,300 personnel in landscape design and architecture, implementation and maintenance in 2012.

The grant is an initiative under the $12 million Landscape Productivity Roadmap, a national effort to enhance productivity, raise capabilities and professionalism, and to restructure operations in the landscape sector, which employed some 7,300 personnel in landscape design and architecture, implementation and maintenance in 2012.
To prepare Singapore for the next phase of its greening journey, NParks continued to put in concerted efforts to support skills development in the landscape industry. In June and July, CUGE organised the inaugural run of the Workforce Skills Qualifications (WSQ) Skills Pack in Nursery Production which covered modules such as media production, plant propagation and maintaining and monitoring production systems (hydroponics-related).

A certification programme on Tree Risk Assessment Qualification was also introduced for NParks staff and industry professionals. The programme by the International Society of Aboriculture (ISA) was aimed at promoting safety by providing a standardised and systematic process for assessing tree risk.

CUGE renewed its Memorandum of Collaboration (MOC) with ISA when senior ISA representatives visited Singapore from 17 to 20 May 2013. The MOC underscored the recognition of CUGE as one of its key certification partners in Asia and Singapore’s position as a hub for arboriculture excellence. CUGE and Parks & Leisure Australia (PLA) also renewed their existing MOC in July, as a testament to continually enhance the skills and knowledge of green space managers in the field of park, recreation and visitor management.

As part of CUGE’s Water Sensitive Urban Landscape Series, a one-day workshop was conducted by industry experts in April 2013 on the topic of storm water treatment and harvesting for irrigation and non-potable on-surface use. Trainees included architects, landscape architects and designers, irrigation specialists and contractors and landscape professionals.

In July 2013, CUGE also published the first two guidelines in its Standards in Urban Ecology series, which is focused on building the competencies in pond water quality management within the local landscape industry. The two guidelines introduce the theory and practice of water quality monitoring for ponds in the tropics, and set out recommended standards for pond water quality using key parameters based upon empirical measurements from 59 ponds across Singapore.

“Enhancing Skills across the Landscape Industry

To prepare Singapore for the next phase of its greening journey, NParks continued to put in concerted efforts to support skills development in the landscape industry. Strengthening our Research Efforts

As part of efforts to further strengthen our research capabilities and provide a strong scientific foundation for NParks’ greening and biodiversity efforts, CUGE Research published five scientific papers, eight research technical notes and a conference paper in 2013.

Dr Christine Vogt, Professor in the Department of Community, Agriculture, Recreation and Resource Studies at Michigan State University, joined CUGE as its fifth Research Fellow. Since 2009, the CUGE Research Fellowship programme has been bringing together global experts and CUGE researchers to collaborate in areas such as urban greenery, urban ecology and urban studies, with the aim of making tropical cities more liveable. Dr Vogt worked with the Urban Studies team to develop a social value framework to garner insights on Singaporeans’ value of parks and urban greenery.

NUTURE OUR STAFF

Building Expertise among Staff

Over the past decades of greening Singapore, NParks has established a strong pool of expertise in horticulture and in-house expertise. Through formal courses and informal sharing experiences, NParks’ staff continued to develop the knowledge, skills and expertise required for their roles within the organisation.

Horticulture Champions (or Hort Champs) took part in various activities organised by colleagues from various units within NParks. These included a plant learning trip to local nurseries, a guided tour of the native giants at the Singapore Botanic Gardens Rain Forest Trail and a sustainable landscaping practices workshop. The Hort Champs’ Native Plant Squad also participated in various salvaging and propagation activities, and helped reintroduce native plant species back into the nature reserves.

In September, NParks’ Hort Standards and Plant Information Unit conducted its second Plant

Matrix roadshow for operations staff, this time focusing on plants for riverine conditions. The session included a demonstration on how to use the Plant Matrix, a specially designed tool to help the staff select suitable plants for a given site condition in a quick and user-friendly manner. This was followed by a showcase of 30 recommended species of trees and shrubs.

NParks also invested in overseas staff training. Two staff went on professional exchange programmes to Parks Victoria in Australia and Prospect Park in the United States of America respectively.

A total of seven students from Singapore Polytechnic’s Diploma in Landscape Architecture course and eight from Ngee Ann Polytechnic’s Diploma in Landscape Design and Horticulture course graduated from the NParks Cadetship Programme during the year.

Spreading Cheer on Corporate Kindness Day

NParks is also committed to giving back to the community. Corporate Kindness Day was organised on 31 May 2013, reaching out to close to 400 participants from 10 charity organisations. A hundred staff volunteered to bring the beneficiaries out to seven parks across Singapore, where educational activities were concurrently organised for them to enjoy.

Staff who completed their professional exchange programmes brought back knowledge in horticulture and landscape management best practices to share among colleagues, and helped build NParks’ network with these overseas botanical institutions.
Since the launch of Singapore’s first tree planting campaign some 50 years ago, the country’s landscape has undergone a dramatic transformation. Our commitment to the Greening of Singapore remains. Today, we continue to find ways to overcome greening challenges in a highly complex urbanised environment and engage the community in building up our green infrastructure.
Connecting Plants and People

One of these enhancements was the opening of the Heritage Museum and CDL Green Gallery to give visitors insights into the Gardens’ rich history and Singapore’s 50-year greening journey. Located at Holttum Hall, which was built in 1921 to serve as the Director of the Gardens’ office and laboratory, the Heritage Museum features interactive exhibits and historical items including old photographs, artefacts, plant specimens, rare botanical books and botanical paintings that date back to the early 19th century. The exhibits in the Museum are supported by City Developments Limited (CDL).

The zero-energy CDL Green Gallery is located on Holttum Lawn and features solar photovoltaic-cladded roof panels that harvest all the energy required for its operations. The building has been accorded the Building and Construction Authority’s Green Mark Platinum status – the highest tier for green buildings.

Let’s create a living legacy for future generations

Capturing Singapore Botanic Gardens’ Rich Heritage

As we marked the milestone in the 50 Years of Greening of Singapore, it was fitting that a nomination has been submitted for Singapore Botanic Gardens to become the country’s first UNESCO World Heritage Site. In November, NParks and National Heritage Board unveiled a five-year Site Management Plan proposing how the Gardens will be managed in the future. Members of the public were invited to contribute their feedback to the Plan, which formed part of the Nomination Dossier that was submitted to UNESCO.

The Plan highlighted how the authenticity and integrity of the Gardens was being conserved and enhanced. Examples included the conservation of Heritage Trees and enhancements in the Gardens to connect plants and people.

The Singapore Botanic Gardens Heritage Museum chronicles the evolution of the Gardens, from its beginnings as a pleasure garden to one that fosters agricultural development in Southeast Asia through its research work.
Kristy’s favourite piece of nature in Singapore is a path she mapped out while trekking from Dairy Farm Park to Bukit Panjang, taking in Bukit Timah Hill along the way. She describes it as her “personal sanctuary.”

It was this love for the natural environment that led Kristy to NParks while she was searching online for volunteering opportunities. “I had a lot of free time back then and it was pretty silly to waste it,” she recalled. Her first session as an NParks volunteer was with plant propagation, where she got to re-pot and trim plants, do a bit of weeding and visit nurseries. Today, she continues to volunteer at least once a month, signing up for sessions that will bring her close to nature. “I prefer doing activities that have direct impact on the environment,” she said. “So now I get the best of both worlds by contributing to the environment while being in places that I like.”

In other enhancements, 56 interpretative signs were installed to increase the educational impact for visitors to the Singapore Botanic Gardens. Ten new nature-based education programmes were also introduced, catering to different age groups.

**Furthering Botanical Science**

The Singapore Botanic Gardens has also been playing an active role in furthering botanical science in the region. In 2013, it contributed 32 scientific papers and research articles in this field, including papers on nine new plant species from India, Sulawesi and Indochina and new orchid distribution records for Myanmar. A total of 25 research field trips were carried out to countries such as Vietnam, Brunei and Thailand to enhance the Gardens’ herbarium collection. Following the signing of a Memorandum of Understanding on the Botanical Survey of Brunei Darussalam in May 2013, work is also being carried out on specimen identifications in herbaria in Singapore and Brunei.

**“In commemoration of CDL’s 50th Anniversary and 50 Years of Greening Singapore this year, we hope that this outstanding Gallery will capture the eco-imagination and raise the appreciation of nature amongst the Gardens visitors.”**

Esther An, Head of Corporate Social Responsibility and General Manager (Corporate Affairs), CDL on the opening of the CDL Green Gallery in the Singapore Botanic Gardens.
Completing the Construction of Eco-Link@BKE

On 5 October 2013, representatives from government agencies and non-governmental organisations came together to plant 50 native trees at Eco-Link@BKE, signifying the completion of construction work on the ecological bridge. The first of its kind in Singapore, Eco-Link@BKE connects Bukit Timah and Central Catchment Nature Reserves over an expressway, enabling wildlife to move freely between them. As the greening efforts take root, NParks and the Land Transport Authority (LTA) will continue to work with nature groups, non-governmental organisations, tertiary institutions, schools, volunteers and government agencies to conduct feasibility studies and ecological monitoring surveys. The baseline data collected will be used as a comparison against the findings of future surveys to monitor the movement of animals between the two reserves.

Creating New Parks and Gardens

Continuing with the greening efforts of the past 50 years, NParks has further strengthened Singapore’s network of green spaces. The 6.8-hectare Choa Chu Kang Park Extension was officially opened on 29 March 2014 with the planting of 30 native trees by grassroots advisers and volunteers. Plans were also announced for a three-generation community garden in Choa Chu Kang that will bring residents closer to one another and to nature. The garden is a joint initiative between NParks and One Connect @ Chua Chu Kang Group Representation Constituency.

Minister for Health Geoh King Yong, who is also Grassroots Adviser to Chua Chu Kang Grassroots Organisations, participated in tree-planting at the launch of the Choa Chu Kang Park Extension.

Other green spaces that were opened and upgraded in 2013 included Telok Kurau Lorong N Park and Changi Beach Park. A streetscape garden was also developed at Yishun St 81 in collaboration with the community. This brought the total number of such gardens to 11.

Linking Communities through the Park Connector Network

The Park Connector Network continued to grow, linking communities and green spaces across the island. As of March 2014, more than 220 km of park connectors have been completed.

On 24 August 2013, NParks launched its first elevated park connector which links Ayer Rajah to Clementi and Buona Vista. More than 70 participants from PC&Frens and Love Cycling Singapore took part in the inaugural ride across the Ayer Rajah Expressway. The ride brought the participants from West Coast Park to the scenic Jurong Lake Park via the West Coast, Ulu Pandan and Jurong Park Connectors. To celebrate the new link, a One Community Walk event was also organised by Ayer Rajah Constituency in collaboration with NParks. The event on 25 August attracted more than 500 residents.

“It’s a fantastic bridge. Thank you for continuing to improve the cycling/walking networks.”

Shona Trench, a fan of NParks’ Facebook page on the elevated park connector bridge.
in implementing sky gardens and vertical greenery. PARKROYAL on Pickering, Singapore received the Outstanding Award for its unique “hotel in a garden” concept, in which skyrise greenery was integrated with its architecture, extending to rooms, corridors, lobbies and common washrooms. A total of 77 entries were received for the awards – the highest number since its inception in 2008.

To promote urban greenery, GreenUrbanScape Asia 2013 was held in conjunction with the International Skyrise Greenery Conference from 7 to 9 November 2013. Jointly organised by NParks, Landscape Industry Association Singapore, Singapore Institute of Landscape Architects and Singex Group, the event attracted over 4,000 participants including 650 conference delegates and speakers from 25 countries.

NParks has also been engaging the industry in regular discussions on the topic of urban greenery. A Skyrise Greenery Sharing Session in June 2013 attracted more than 70 stakeholders including architects, landscape architects, developers, building owners, agency representatives and contractors. Topics discussed included upcoming CUGE standards for Skyrise Greenery and updates on the Skyrise Greenery Incentive Scheme.

Nine developments were recognised for outstanding greenery under NParks’ new Landscape Excellence Assessment Framework (LEAF) certification scheme, the first and only one in Singapore solely dedicated to the provision and management of quality greenery. New developments Corals at Keppel Bay, Senja Parc View, The Interlace and The Rainforest as well as existing developments 158 Cecil Street, Khoo Teck Puat Hospital, Newton Suites, Pangshan Grove and Siloso Beach Resort were presented with the certificates during the inaugural ceremony on 19 August.

The first dedicated urban greenery exhibition in Asia, GreenUrbanScape Asia brought together international experts and thought leaders to explore key issues and challenges in urban greenery and landscaping in a global context.

The new elevated park connector bridge links Pandan Gardens Park Connector to Ulu Pandan Park Connector.

The Interlace Condominium is one of nine developments recognised for outstanding greenery under the new LEAF certification scheme.

In Tampines, the Park Connector Network is an integral part of the town’s cycling path network, complementing dedicated cycling tracks constructed by the Land Transport Authority. Completed on 14 June 2013, the 11.3-km network allows residents to move about easily and safely on bicycles, to places such as the MRT station and bus interchange.

Greening our Urban Infrastructure

A more recent development in Singapore’s greening history is the effort to green Singapore upwards as well. In 2013, another 9.1 hectares of skyrise greenery was added to our urban landscape, bringing the total to 61 hectares. New skyrise greenery projects that were completed included those at Bishan Junction 8, St Andrew’s Community Hospital and Telok Kurau Primary School.

The Skyrise Greenery Awards 2013 were presented to a record 14 local developments to recognise excellence in implementing sky gardens and vertical greenery.

The Garden City Fund was set up in 2002 to encourage the community to express their personal stake in sustaining our City in a Garden. While the government will continue to fund the basic green infrastructure, the Fund promotes and manages the Garden City Fund in accordance to its Trust Deed.

Corporate Governance

FY 2013

BOARD MEMBERS

NParks is overseen by a Board comprising 10 members. The current Chairman is Mrs Christina Ong. All the Board members are non-executive members, except the Chief Executive Officer, Mr Kenneth Er. The Board derives its strength from the extensive and complementary background, qualifications and experience of its members.

The Board’s key responsibilities are:

- Endorse broad directions, policies and strategies relating to NParks’ achievement of its vision, mission and objectives, and performance of its functions.
- Oversee NParks’ operating and financial performance taking into account NParks’ budget, expenditure, assets, transactions and projects.
- Provide guidance on matters relating to NParks’ parks and infrastructure development programmes.
- Approve NParks’ tenders (as members of the relevant Tenders Boards).

The Board has established the following committees to assist it in carrying out its duties:

- Human Resource and Compensation Committee;
- Audit Committee;
- Operations Risk Committee; and
- Garden City Fund Management Committee.

The Human Resource and Compensation Committee's role is to review key human resource policies and provide strategic oversight of related risks. The Audit Committee ensures a high standard of corporate governance through independent reviews of internal controls, financial reporting processes and financial risks. In addition, the Audit Committee reviews the audited financial statements, as well as the audit plans and observations of external and internal auditors. The Operations Risk Committee provides strategic oversight on NParks’ operations risk management framework, including review of NParks’ operations risks. The Garden City Fund Management Committee plans, develops, promotes and manages the Garden City Fund in accordance to its Trust Deed.

ACCOUNTABILITY AND AUDIT

The Board’s accounts are audited by the Auditor-General or such other auditor may be appointed annually by the Minister in consultation with the Auditor-General. The auditor engaged for financial year ended 31 March 2014 was Deloitte & Touche. The auditor’s findings in the course of the annual financial audit are submitted to the Board and also reported to the Ministry of National Development. The audited financial statements and the auditor’s report are also presented to Parliament.

INTERNAL CONTROL FRAMEWORK

NParks’ internal control system ensures that assets are safeguarded, proper accounting records are maintained, and financial information is reliable. The overall control framework includes:

- An organisation structure with clearly defined authority and delegation limits and reporting mechanisms to higher levels of management and to the Board;
- An annual budgeting and quarterly financial reporting system for all operating units that enables progress against annual plans and objectives to be monitored;
- Compliance with the provisions of the National Parks Board Act, Chapter 198A, Singapore Financial Reporting Standards, Government Instruction Manuals, Finance and PSD Circulars and Minutes for policies and procedures related to operations, human resource management and financial controls and regulations;
- A risk management framework which ensures close monitoring with proper mitigating measures for all identified high risk areas.
**Financial Review**

**INCOME**

The Board’s income comprised mainly rental income from souvenir kiosks and food & beverage outlets in Singapore Botanic Gardens and Fort Canning Park. The income for the year was $18.6 million. The 6% decrease from last year’s income was mainly due to the decrease in rental income.

**Operating Expenditure**

The Board’s expenditure for the year was $191.1 million. The 3% decrease from last year’s expenditure was mainly due to the decrease in general and administrative expenses offset by an increase in maintenance and improvements of parks as well as an increase in staff costs.

CAPITAL EXPENDITURE

The Board's capital expenditure for the year was $5 million. The increase in capital expenditure was mainly due to the work carried out on Heritage Museum, headquarter building and visitor centre at Singapore Botanic Gardens.

Financial Review

FINANCIAL POSITION

As at 31 March 2014, the Board's total assets stood at $338.7 million, an increase of 5% over last year. Non-current assets and current assets represent 35% and 65% of total assets respectively. Non-current assets consisted mainly of leasehold land and buildings and structures at Singapore Botanic Gardens and Fort Canning Park. Capital and reserve stood at $155.5 million, while current and non-current liabilities stood at $57.1 million and $126.1 million respectively.

In our opinion,

(a) the accompanying financial statements of National Parks Board ("NParks") and its subsidiary (the "Group"), set out on pages 64 to 88 are properly drawn up in accordance with the provisions of the National Parks Board Act, Chapter 198A (the "Act") and Statutory Board Financial Reporting Standards ("SB-FRS") so as to present fairly, in all material respects, the state of affairs of the Group and NParks as at 31 March 2014, and of the results, changes in equity of the Group and NParks and cash flows of the Group for the financial year ended on that date;

(b) proper accounting and other records, required by the Act to be kept by NParks, have been properly kept in accordance with the provisions of the Act; and

(c) the receipt, expenditure, investments of moneys and the acquisition and disposal of assets by NParks during the financial year have been in accordance with the provisions of the Act.

On behalf of the National Parks Board and its subsidiary

Christina Ong
Chairman

Kenneth Er Boon Hwee
Chief Executive Officer

Singapore
23 July 2014
Auditor’s Responsibility

Our responsibility is to express an opinion on management’s compliance based on our audit of the financial statements. We conducted our audit in accordance with Singapore Standards on Auditing. We planned and performed the compliance audit to obtain reasonable assurance about whether the receipts, expenditure, investment of moneys and the acquisition and disposal of assets, are in accordance with the provisions of the Act.

Our compliance audit includes obtaining an understanding of the internal controls relevant to the receipts, expenditure, investment of moneys and the acquisition and disposal of assets; and assessing the risks of material misstatement of the financial statements from non-compliance, if any, but not for the purpose of expressing an opinion on the effectiveness of the entity’s internal controls. Because of the inherent limitations in any accounting and internal control system, non-compliances may nevertheless occur and not be detected. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on management’s compliance.

Opinion

In our opinion:

a) the receipts, expenditure, investment of moneys and the acquisition and disposal of assets by NParks during the year are, in all material respects, in accordance with the provisions of the Act; and

b) proper accounting and other records have been kept in accordance with the provisions of the Act.

Management’s Responsibility for Compliance with Legal and Regulatory Requirements

Management is responsible for ensuring that the receipts, expenditure, investment of moneys and the acquisition and disposal of assets, are in accordance with the provisions of the Act. This responsibility includes implementing accounting and internal controls as management determines are necessary to enable compliance with the provisions of the Act.

The accompanying notes form an integral part of these consolidated financial statements.
1. General

National Parks Board ("NParks") is a statutory board under the Ministry of National Development ("MND") established under the National Parks Board Act (Chapter 198A). The Board has its registered office at Singapore Botanic Gardens, 1 Cluny Road, Singapore 239569.

The primary activities of NParks are to develop, manage and promote the National Parks and Nature Reserves as valuable reserves for recreation, conservation, research and education and to develop, upgrade, manage and maintain the public parks, open spaces on behalf of the Government.

There has been no significant changes in the nature of these activities during the financial year.

The principal activities of the subsidiary are described in Note 9 to the financial statements.

The financial statements of NParks for the financial year ended 31 March 2014 were authorised for issue by members of the Board on 23 July 2014.

2. Summary of significant accounting policies

Basis of accounting and adoption of new and revised standards - The financial statements are prepared in accordance with the historical cost basis, except as disclosed in the accounting policies below, and are drawn up in accordance with the provisions of the Act, and Statutory Board Financial Reporting Standards ("SB-FRS"), including INT SB-FRS and Guidance Notes.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability which market participants would take into account when pricing the asset or liability at the measurement date.

Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of FRS 102, leasing transactions that are within the scope of FRS 17, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in FRS 2 or value in use in FRS 36.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly, and
- Level 3 inputs are unobservable inputs for the asset or liability.

On 1 April 2013, the Group adopted all the new and revised SB-FRS and Interpretations of SB-FRS ("INT SB-FRS") and SB-FRS Guidance Notes that are effective from that date and are relevant to its operations. The adoption of these new/revised SB-FRSs, INT SB-FRS and SB-FRS Guidance Notes does not result in changes to the Group's accounting policies and has no material effect on the amounts reported for the current or prior years.

Management anticipates that the adoption of the above SB-FRSs, INT SB-FRSs and amendments to SB-FRSs in future periods will not have a material impact on the financial statements of the Group and of NParks in the period of their initial adoption.

Basis of consolidation - The consolidated financial statements incorporate the financial statements of NParks and entities (including special purpose entities) controlled by NParks (its subsidiaries). Control is achieved where NParks has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities.

Where necessary, adjustments are made to the financial statements of the subsidiary to bring its accounting policies into line with those used by other members of the Group.

All intra-group transactions, balances, income and expenses are eliminated in full on consolidation.

In NParks' financial statements, investment in subsidiary is carried at cost less any impairment in net recoverable value that has been recognised in income or expenditure.

Financial instruments - Financial assets and financial liabilities are recognised on the Group's statement of financial position when the Group becomes a party to the contractual provisions of the instrument.

Effective interest method

The effective interest method is a method of calculating the amortised cost of a financial instrument and of allocating interest income or expense over the relevant period. The effective interest rate is the rate that exactly discounts the estimated future cash receipts or payments (including all fees paid or received that form an integral part of the effective interest rate, transaction costs and other premium or discounts) through the expected life of the financial instrument, or where appropriate, a shorter period. Income and expenses are recognised on an effective interest basis for debt instruments.

Financial assets

All financial assets are recognised and derecognised on a trade date basis where the purchase or sale of an investment is under a contract whose terms require delivery of the investment within the timeframe established by the market concerned, and are initially measured at fair value plus transaction costs.

Loans and receivables

Trade and other receivables are measured at amortised cost using the effective interest method less impairment. Interest is recognised by applying the effective interest method, except for short-term receivables when the effect of discounting is immaterial.

Impairment of financial assets

Financial assets, other than those at fair value through income or expenditure, are assessed for indicators of impairment at the end of each reporting period. Financial assets are impaired where there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows of the financial assets have been impacted.

For financial assets carried at amortised cost, the amount of the impairment is the difference between the asset's carrying amount and the present value of the estimated future cash flows discounted at the current market rate of return for a similar financial asset. Such impairment loss will not be reversed in subsequent periods.

For financial assets that are carried at cost, the amount of the impairment loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate.

For financial assets measured at amortised cost, if, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed through income or expenditure to the extent that the carrying amount of the financial asset at the date the impairment is reversed does not exceed what the amortised cost would have been had the impairment not been recognised.

Derecognition of financial assets

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.
Financial liabilities and equity instruments

Classification as debt or equity

Financial liabilities and equity instruments issued by the Group are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities. Equity instruments are recorded at the proceeds received, net of significant direct issue costs.

Financial liabilities

Trade and other payables are initially measured at fair value, net of transaction costs, and are subsequently measured amortised cost, using the effective interest method, with interest expense recognised on an effective yield basis.

Derecognition of financial liabilities

The Group recognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or they expire.

Leases - Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

The Group as lessee

Rental income from operating leases is recognised on a straight-line basis over the term of the relevant lease unless another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed. Contingent rentals arising under operating leases are recognised as an expense in the period in which they are incurred.

In the event that lease incentives are received to enter into operating leases, such incentives are recognised as a liability. The aggregate benefit of incentives is recognised as a reduction of rental expense on a straight-line basis, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

Inventories - Inventories are stated at the lower of cost and net realisable value. The cost of inventories is based on the first-in first-out method, and includes expenditure incurred in acquiring the inventories. Net realisable value represents the estimated selling price less all estimated costs of completion and costs to be incurred in marketing, selling and distribution.

Property, plant and equipment - Property, plant and equipment are stated at cost less accumulated depreciation and any accumulated impairment losses.

Depreciation is charged so as to write off the cost of property, plant and equipment over their estimated useful lives, using the straight-line method on the following bases:

<table>
<thead>
<tr>
<th>Property Type</th>
<th>Useful Life</th>
</tr>
</thead>
<tbody>
<tr>
<td>Leasehold land</td>
<td>Over the lease periods of 87 to 93 years</td>
</tr>
<tr>
<td>Office equipment, furniture and fittings</td>
<td>5 to 10 years</td>
</tr>
<tr>
<td>Laboratory and gardening equipment</td>
<td>7 years</td>
</tr>
<tr>
<td>Motor vehicles</td>
<td>8 to 10 years</td>
</tr>
</tbody>
</table>

Government grants - Government grants are not recognised until there is reasonable assurance that the Group will comply with the conditions attaching to them and the grants will be received. Government grants whose primary condition is that the Group should purchase, construct or otherwise acquire non-current assets are recognised as deferred income over the periods necessary to match them with the costs for which they are intended to compensate, on a systematic basis. Government grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Group with no future related costs are recognised in income or expenses in the period in which they become receivable.

The value of land at the Singapore Botanic Gardens and the Fort Canning Park that vested in NParks when it was established in June 1990 was taken to the deferred capital grant assets. The value of all other assets net of liabilities transferred from the former Parks and Recreation Department of Ministry of National Development (PRD) to NParks in June 1990 and July 1996 amounting to $4,528,275 was taken to the capital account.

Trust and agency funds - Trust and agency funds are set up to account for funds held in trust where NParks is not the owner and beneficiary of the funds received from the Government and other organisations. The receipts and expenditure in respect of agency funds are taken directly to the funds accounts and the net assets relating to the funds are shown as a separate line item in the statement of financial position. Trust and agency funds are accounted for on the accrual basis.

NParks administers the funds on behalf of the holders of these funds. Upon dissolution of these funds, the remaining moneys in these funds shall be returned to the owners of the funds.
Employee leave entitlement - Employee entitlements to annual leave are recognised when they accrue to employees. A provision is made for the estimated liability for annual leave as a result of services rendered by employees up to the end of the reporting period.

Contribution to consolidated fund - Under Section 13(1)(e) and the First Schedule of the Singapore Income Tax Act, Chapter 134, the income of the Group is exempt from income tax.

In lieu of income tax, NParks is required to make contribution to the Government Consolidated Fund in accordance with the Statutory Corporations (Contributions to Consolidated Fund) Act, Chapter 319A. The provision is based on the guidelines specified by the Ministry of Finance. It is computed based on the net surplus of the Group for each of the financial year at the prevailing corporate tax rate for the Year of Assessment. Contribution to consolidated fund is provided for on an accrual basis.

Cash and cash equivalents in the statement of cash flows - Cash and cash equivalents comprise cash at bank and demand deposits that are readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value.

3. Critical accounting judgements and key sources of estimation uncertainty

In the application of the Group’s accounting policies, which are described in Note 2, management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

The Group did not make any material judgements that have significant effect on the amounts recognised in the financial statements.

Key sources of estimation uncertainty

The key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are discussed below:

Depreciation of and impairment loss on property, plant and equipment

The cost of property, plant and equipment is depreciated on a straight-line basis over their useful lives. The Group estimates the useful lives of these properties, plant and equipment to be within 5 to 93 years, based on the estimated useful lives of the assets. The carrying amounts are disclosed in Note 10 of the financial statements. Changes in the expected level of usage, technological developments and economic conditions could impact the economic useful lives and the residual values of these assets, therefore future depreciation charges could be revised.

Impairment losses would be made for property, plant and equipment whenever there is objective evidence that the assets are impaired. The required level of impairment losses to be made is estimated by reference to the estimated value in use or price quotations from independent third parties.

Impairment loss on trade receivables

The Group evaluates whether there is any objective evidence that trade receivables are impaired and determines the amount of impairment loss as a result of the inability of the debtors to make required payments. The Group bases the estimates on the ageing of the trade receivables balance, credit-worthiness of the debtors and historical write-off experience. If the financial conditions of the debtors were to deteriorate, actual write-offs would be higher than estimated.

Valuation of defined benefit obligations

The Group and the Singapore Government jointly finance the payment of gratuity, pension or allowance to pensionable officers at their retirement. The split of pension costs is determined based on the accumulated pensionable emoluments earned by the pensionable employee while he was in the government services as compared with his service with the Group up to his retirement.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

The valuation of the defined benefits obligations is determined using the projected unit credit method. The most recent full actuarial valuation of the defined benefits obligations was carried out as at 31 March 2013.

The assumptions which have the most significant effect on the results of the valuation are those relating to discount rate, future salary increase rate, pre-retirement mortality and historical average annual salary increase rate. The assumptions used by the actuary are the best estimates chosen from a range of possible actuarial assumptions, which due to the timescale covered, may not necessarily be borne out in practice. The present value of the liabilities is derived from cash flows projections over long periods and is inherently uncertain.

4. Financial instruments, financial risks and capital risks management

(a) Categories of financial instruments

The following table sets out the financial instruments as at the end of the reporting period:

<table>
<thead>
<tr>
<th>Financial assets</th>
<th>Group</th>
<th>NParks</th>
</tr>
</thead>
<tbody>
<tr>
<td>Loans and receivables</td>
<td>217,777,367</td>
<td>194,468,618</td>
</tr>
<tr>
<td>(including cash and cash equivalent)</td>
<td>217,531,912</td>
<td>194,222,747</td>
</tr>
</tbody>
</table>

(b) Financial risk management policies and objectives

The Group is exposed to financial risk arising from its operations which include interest rate risk, credit risk and liquidity risk. The Group has written policies and guidelines, which set out its general risk management framework as discussed below.

There has been no change to the Group’s exposure to these financial risks or the manner in which it manages and measures the risk.

(i) Interest rate risk management

The Group’s exposure to changes in interest rates relates primarily to fixed deposits and non-current trade receivables. Surplus funds in NParks are placed with Accountant-General’s Department (“AGD”) as disclosed in Note 6. These deposits are with short-term maturities and there are no other significant interest-earning assets (except for a non-current trade receivable with fixed interest rate as disclosed in Note 7) or interest-bearing liabilities as at the end of the reporting period.

Interest rate sensitivity analysis has not been presented as management does not expect any reasonable possible changes in interest rates to have a significant impact on the Group’s operations and cash flows. The Group does not have any interest-bearing financial liabilities.

(ii) Credit risk management

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Group.

Credit risks, or the risk of counterparties defaulting, are controlled by the application of regular monitoring procedures. Except for receivables due from MND and other government agencies, there is no significant concentration of credit risk. The extent of the Group’s credit exposure is represented by the aggregate balance of financial assets at the end of each reporting period.

(iv) Fair values of financial assets and financial liabilities

The carrying amounts of financial assets and financial liabilities as reported in the financial statements approximate their respective fair values due to the relatively short-term maturity of these financial instruments.

(c) Capital risk management policies and objectives

The Group manages its capital to ensure that it will be able to continue as a going concern while fulfilling its objective as a statutory board.

The capital structure of the Group consists of accumulated surplus, capital account, sinking fund and share capital. The overall strategy of the Group remains unchanged from the previous financial year.

5. Related party transactions

Some of the Group’s transactions and arrangements are with related parties and the effect of these on the basis determined between the parties is reflected in these financial statements. The balances are unsecured, interest-free and repayable on demand unless otherwise stated.

The Group and NParks entered into the following significant transactions with its parent Ministry, MND, and other related parties during the year:

<table>
<thead>
<tr>
<th>Related party transactions</th>
<th>Group</th>
<th>NParks</th>
</tr>
</thead>
<tbody>
<tr>
<td>Loans and receivables</td>
<td>217,777,367</td>
<td>194,468,618</td>
</tr>
<tr>
<td>(including cash and cash equivalent)</td>
<td>217,531,912</td>
<td>194,222,747</td>
</tr>
</tbody>
</table>

The valuation of the defined benefits obligations is determined using the projected unit credit method. The most recent full actuarial valuation of the defined benefits obligations was carried out as at 31 March 2013.

The assumptions which have the most significant effect on the results of the valuation are those relating to discount rate, future salary increase rate, pre-retirement mortality and historical average annual salary increase rate. The assumptions used by the actuary are the best estimates chosen from a range of possible actuarial assumptions, which due to the timescale covered, may not necessarily be borne out in practice. The present value of the liabilities is derived from cash flows projections over long periods and is inherently uncertain.

4. Financial instruments, financial risks and capital risks management

(a) Categories of financial instruments

The following table sets out the financial instruments as at the end of the reporting period:

<table>
<thead>
<tr>
<th>Financial assets</th>
<th>Group</th>
<th>NParks</th>
</tr>
</thead>
<tbody>
<tr>
<td>Loans and receivables</td>
<td>217,777,367</td>
<td>194,468,618</td>
</tr>
<tr>
<td>(including cash and cash equivalent)</td>
<td>217,531,912</td>
<td>194,222,747</td>
</tr>
</tbody>
</table>

(b) Financial risk management policies and objectives

The Group is exposed to financial risk arising from its operations which include interest rate risk, credit risk and liquidity risk. The Group has written policies and guidelines, which set out its general risk management framework as discussed below.

There has been no change to the Group’s exposure to these financial risks or the manner in which it manages and measures the risk.

(i) Interest rate risk management

The Group’s exposure to changes in interest rates relates primarily to fixed deposits and non-current trade receivables. Surplus funds in NParks are placed with Accountant-General’s Department (“AGD”) as disclosed in Note 6. These deposits are with short-term maturities and there are no other significant interest-earning assets (except for a non-current trade receivable with fixed interest rate as disclosed in Note 7) or interest-bearing liabilities as at the end of the reporting period.

Interest rate sensitivity analysis has not been presented as management does not expect any reasonable possible changes in interest rates to have a significant impact on the Group’s operations and cash flows. The Group does not have any interest-bearing financial liabilities.

(ii) Credit risk management

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Group.

Credit risks, or the risk of counterparties defaulting, are controlled by the application of regular monitoring procedures. Except for receivables due from MND and other government agencies, there is no significant concentration of credit risk. The extent of the Group’s credit exposure is represented by the aggregate balance of financial assets at the end of each reporting period.

Notes
(i) Total operating grants received/receivable less transferred to deferred capital grants since establishment are $2,037,858,968 (2012/2013: $1,849,633,933).
(ii) Other grants comprise grants received from other government agencies.
(iii) Development grants received from MND and other government agencies for Gardens by the Bay and other development projects.

12. Trade and other payables

<table>
<thead>
<tr>
<th></th>
<th></th>
<th></th>
<th></th>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Trade payables</td>
<td>5,994,113</td>
<td>5,133,487</td>
<td>5,988,833</td>
<td>5,110,287</td>
<td></td>
</tr>
</tbody>
</table>
| Other payables
  - MND (iv) | 2,969,408 | 3,200,226 | 2,969,408 | 3,200,226 |
  - Garden City Fund (v) | 11,444 | 32,137 | 11,444 | 32,137 |
  - Others | 8,711,710 | 6,708,975 | 8,711,710 | 6,708,975 |

Trade payables comprise primarily state revenue collections received on behalf of the Ministry. The amounts are unsecured and interest-free, and are repayable on demand.

Non-trade amounts due to Garden City Fund were unsecured and interest-free.

13. Provision for pension costs

<table>
<thead>
<tr>
<th>Group and NParks</th>
<th>2013/2014</th>
<th>2012/2013</th>
</tr>
</thead>
<tbody>
<tr>
<td>Interest cost</td>
<td>49,900</td>
<td>82,450</td>

<td>119,702</td>
</tr>
<tr>
<td>Total</td>
<td>385,681</td>
<td>222,152</td>
</tr>
</tbody>
</table>

The provision has been estimated by management based on the valuation of the pension scheme performed by an independent firm of professional actuaries.

The principal assumptions used by the professional actuaries in determining the pension costs are as follows:

<table>
<thead>
<tr>
<th>Assumption</th>
<th>2013/2014</th>
<th>2012/2013</th>
</tr>
</thead>
<tbody>
<tr>
<td>Discount rate</td>
<td>0.8%</td>
<td>0.8%</td>
</tr>
<tr>
<td>Salary increase rate</td>
<td>3.0%</td>
<td>3.0%</td>
</tr>
</tbody>
</table>

Assumptions regarding future mortality are based on published statistics and mortality tables.
14. Deferred revenue

<table>
<thead>
<tr>

<td>242,960</td>
<td>220,835</td>
<td></td>
</tr>
<tr>
<td>Total</td>
<td>3,471,551</td>
<td>3,540,960</td>
<td></td>
</tr>
</tbody>
</table>

Represented by:
- Current portion: 83,333
- Non-current portion: 3,388,218
- Total: 3,471,551

15. Contribution to consolidated fund

With effect from 1 April 2003, NParks is required to make contribution to the Government Consolidated Fund in accordance with the Statutory Corporations (Contributions to Consolidated Fund) Act, Chapter 319A. The provision is based on the guidelines specified by the Ministry of Finance. It is computed based on the net surplus of the Group for each of the financial year at the prevailing corporate tax rate for the Year of Assessment. Contribution to consolidated fund is provided for on an accrual basis.

16. Deferred capital grants

<table>
<thead>
<tr>

</tbody>
</table>

Issued and fully paid up:
- At beginning and end of year: 1,000

Injection of capital is part of the Capital Management Framework for Statutory Boards under Finance Circular Minute M26/2008. The shares have been fully paid and are held by the Minister for Finance, a body corporate incorporated by the Minister for Finance (Incorporation) Act (Chapter 183). The holder of these shares, which has no par value, is entitled to receive dividends.

19. Sinking fund

The sinking fund is designated to fund the replacement and capital improvement of property, plant and equipment.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

20. Net assets of Garden City Fund

NParks established the Garden City Fund ("GCF") on 1 July 2002 to enhance the enjoyment of the garden city in areas where there is no government funding. The Garden City Fund is managed, administered and controlled by the Garden City Fund Management Committee (the Committee), although NParks has the authority to remove any members from the Committee, and provide directions and guidelines on the conduct of meetings and other matters relating to the proceedings of the Committee.

The Garden City Fund comprises the Garden City Endowment Fund (GCEF) and the Garden City Non-Endowment Fund (GCNEF). The GCNEF comprises all moneys transferred from the specific funds of NParks upon the formation of the Garden City Fund on 1 July 2002 and all other contributions to the GCEF.

The GCEF and the income from the GCEF will be used to further the objectives of the Garden City Fund.

Upon dissolution of the Garden City Fund, the remaining moneys in the fund shall be donated to charitable organisations which have been designated as institutions of a Public Character under the Income Tax Act (Chapter 134) and registered under the Charities Act (Chapter 37).

The following financial information represents GCNEF. There has been no contribution to the GCEF since establishment.
