Guided Walk

Festival of Biodiversity

Chek Jawa Tour

Kampong Tour

Citizen Science

Citizen science refers to the community participating in organised research efforts to survey the biodiversity around us. The data you help collect can inform decision makers and help to formulate conservation strategies. Programmes are:

BioBlitz

Butterfly Watch

Garden Bird Watch

Intertidal Watch

Heron Watch

Community in Bloom

Put your green fingers to good use as you maintain a garden, including sowing of seeds, pruning, weeding, fertilising the soil, composting and identifying and labelling plants. The programme is known as:

Community in Bloom

Visitor Services

Enjoy interacting with people? Help provide general information to visitors, respond to queries, gather feedback and manage notice boards and brochure stands.

Visitor Assistance

Singapore Botanic Gardens

Volunteer With Us!

Love spending time surrounded by nature? Passionate about greenery? Then come join us as a volunteer and help make Singapore our garden!

Volunteers are important to us, and we value the time and contribution of every one on our volunteer programme. The partnership created with these greenery enthusiasts has meant that we can accomplish much more than we would. Choose to volunteer for a wide range of activities such as gardening, leading conservation programmes, facilitating outreach and education initiatives, and conducting guided walks and tours.

Training will be provided for these activities.

What Our Volunteers Say

"Volunteering with NParks gives me an avenue to get close to nature. It keeps me active and allows me to give back to the community."

Pang Shi Jie,
Volunteer at Bishan-Ang Mo Kio Park

"My wish is that we will learn to appreciate the beauty of this living earth and share our knowledge with others so as to cultivate a closer relationship with Mother Nature and among ourselves."

Tham Pui San,
Nature Artist and Volunteer at
Sungei Buloh Wetland Reserve
