

### Best Visiting Time:

Early morning (before 9 am) or evening (after 5 pm) when the community gardeners are usually present. Special arrangements for garden visits can be made with the respective Residents' Committee-in-charge.

### Garden Visit Etiquette:

- Ask the gardeners for assistance if you would like some plant cuttings such as Butterfly Pea and Roselle, which are grown on the perimeter of the community garden.
- Help keep the plants healthy for all to enjoy by not damaging them.
- Gardeners have put in many hours of hard work to grow the crops. Return their kindness by offering them seed packs or volunteering to help out with gardening activities.

### About Community In Bloom Programme

Community In Bloom (CIB) is a programme launched by National Parks Board (NParks) in 2005. It aims to nurture a gardening culture among Singaporeans by encouraging and facilitating community gardening efforts. It is also an opportunity to build community bonds and strengthen social resilience.

## Fengshan Community Garden Trail

*Come discover your  
neighbourhood  
community gardens*

Over the years, the Community in Bloom (CIB) programme has worked with Town Councils, Residents' Committees (RC) and Neighbourhood Committees (NC) to set up community gardens where residents can enjoy gardening, as well as bond with their neighbours.

Today, Fengshan Constituency is home to more than eight community gardens where ornamental and fruit-bearing plants are common features. These community gardens also incorporate environmentally-friendly initiatives where upcycling of materials is often used, to enhance the gardens.

The Fengshan Community Garden Trail serves as a guide for visitors to discover beautiful gardens managed by residents in their friendly neighbourhood.

## Fruit-bearing Plants

**Chiku** (*Manilkara zapota*)

**Custard Apple**  
(*Annona squamosa*)

**Star Fruit** (*Averrhoa carambola*)

**Purple Passion Fruit**  
(*Passiflora edulis* f. *flavicarpa*)

**Kedondong**  
(*Spondias cytherea*)

**Mulberry** (*Morus alba*)

**Jackfruit** (*Artocarpus heterophyllus*)

## Ornamental Plants

**Butterfly Pea** (*Clitoria ternatea*)

A blue, edible dye can be extracted from its flowers and is used to make traditional Malay and Nonya kuehs.

**Roselle** (*Hibiscus sabdariffa*)

Fresh or dried flowers can be immersed in hot water and then sweetened with sugar to prepare a beverage rich in antioxidants such as Vitamin C and anthocyanin.

**Singapore Rhododendron**  
(*Melastoma malabathricum*)

Its seeds are used to produce a black dye while the roots produce a pink dye.

**Four-o'clock**  
(*Mirabilis jalapa*)

Its flowers can be used to make various dyes, depending on the colour of the petals.

# Fengshan Community Garden Trail

## A Between Blk 93 and 94E Bedok North Ave 4 Fengshan Topaz RC

The decor at this community garden was creatively done up using recycled materials. Butterflies are also a common sight here, thanks to several butterfly-attracting plants such as Lime and Blue Snakeweed.

## B Blk 100 Bedok North Ave 4 Fengshan Pearl RC

Look out for the DIY planter edging made from recycled materials. This allotment style community garden also features fruit trees such as the Custard Apple and Kedondong.

## C Blk 115 Bedok North Rd Fengshan Jade RC

Admire the bonsai, ornamental plants (such as Garden Balsam and Desert Rose) and art pieces created from recycled materials, found in this garden.

## D Blk 119 Bedok North Rd Fengshan Crystal RC

Pretty ornamental plants like the Four-o'clock and Singapore Rhododendron can be found in this garden.

## E Blk 184 Bedok North Rd Fengshan Diamond RC

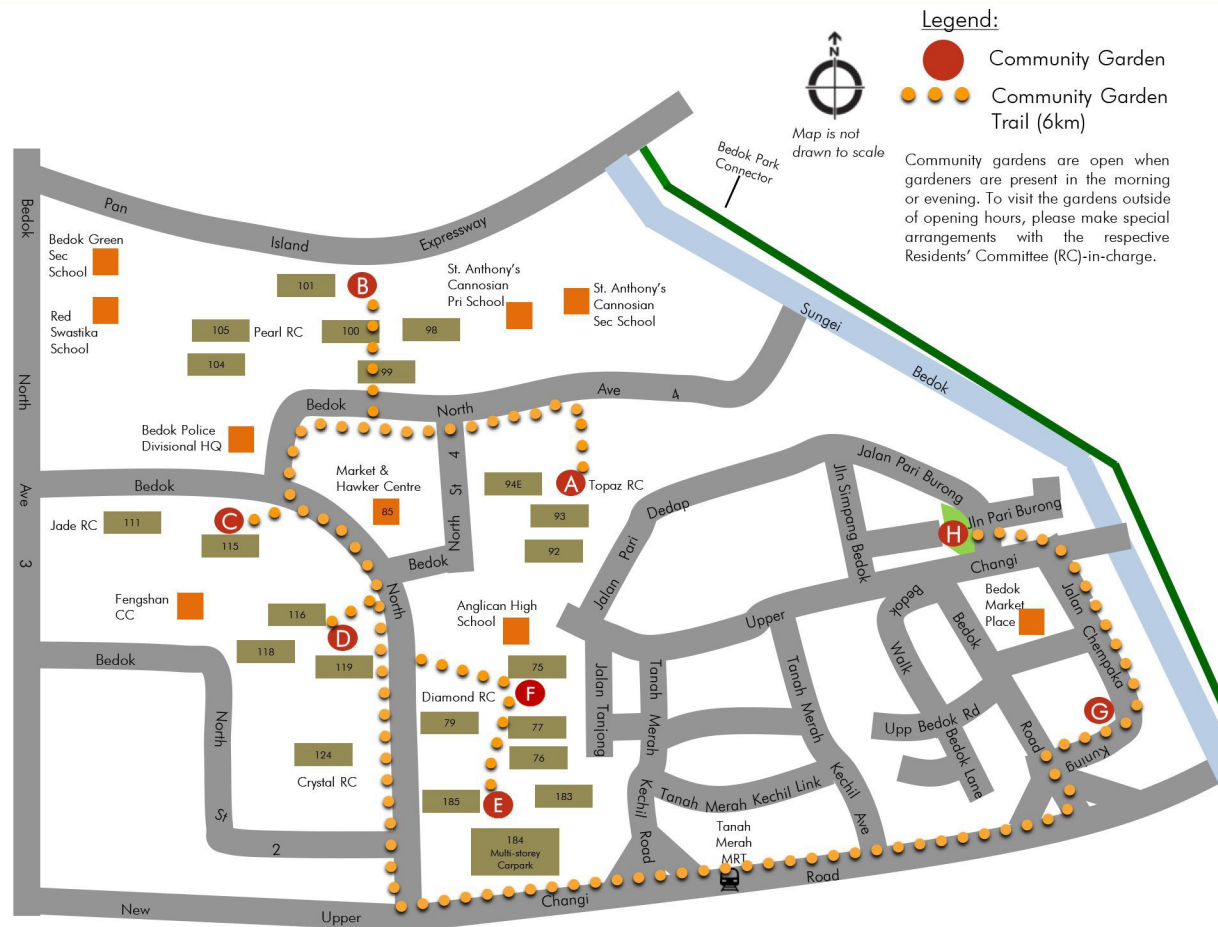

Check out this rooftop community garden which features attractive ornamental plants such as Garden Balsam and Desert Petunia.

## F Blk 76 Bedok North Rd Fengshan Diamond RC

This garden features edibles like the Winter Melon, Butterfly Pea and Roselle.

### Legend:

- Community Garden
- Community Garden Trail (6km)

Community gardens are open when gardeners are present in the morning or evening. To visit the gardens outside of opening hours, please make special arrangements with the respective Residents' Committee (RC)-in-charge.

## H Jalan Pari Burong Playground Fengshan Simpang Bedok NC

You can't miss the sampan made from recycled materials found in this community garden located in a community park. The Water Jasmine plant, a bonsai, can also be found here.

## G Chempaka Estate Fengshan Simpang Bedok NC

Keep your eyes peeled for the beautiful miniature gardens found along the road verge of this green space. Enjoy the sight of pretty ornamental plants such as Firecracker Plant and Coleus.
