Residents' Committees

Supporting Partner:

About Community In Bloom Programme
Community In Bloom (CIB) is a programme launched by National Parks Board (NParks) in 2005. It aims to nurture a gardening culture among Singaporeans by encouraging and facilitating community gardening efforts. It is also an opportunity to build community bonds and strengthen social resilience.

Plants in CIB Gardens

Sireh
Piper betle

Kang Kong
Ipomoea aquatica

Pandan
Pandanus amaryllifolius

Mahkota Dewa
Phaleria macrocarpa

Roselle
Hibiscus sabdariffa

Mas Kotek
Ficus deltoidea

Tempinis Tree

The name 'Tampines' is derived from the Ironwood tree known to the locals as Tempinis (Spreblus elongatus) that grew abundantly in this area. The Tempinis tree is monoecious, meaning that it produces both male and female flowers on the same tree. Its flowers are insect-pollinated.

(Clockwise from left) Tempinis tree, its leaf, flower and fruit.

Best Visiting Time:

Early morning (before 9am) or evening (after 5pm) when the community gardeners are usually present. Special arrangements for garden visits can be made with the respective Residents' Committee-in-charge.

Garden Visit Etiquette:

- Approach the gardeners before taking any plants or cuttings from the community garden.
- Ask the gardeners for assistance if you like some of the plants, such as Pandan or Lemongrass which are grown on the perimeter of the community gardens.
- Gardeners have put in many hours of hard work under the hot sun to grow the crops. Return their kindness by offering them seed packs or volunteering to help out with gardening activities.

Tampines Central Community Garden Trail

A 720 Tampines St 72
Tampines Starlight RC – Le Garden

Come and learn how to grow fruits and vegetables from avid gardeners here.
