Answers:		

Reading a cat's behaviour

Learn how to read the behaviour of a cat. Match the correct behaviour to the image below.

Friendly

Content/relaxed

Defensive

Clue:

When a cat is friendly, its body posture is relaxed. It will approach you and rub its cheeks on your legs.	When a cat is content, its body posture is relaxed and their pupils dilate normally. The mouth is closed and tail has a U-shaped curve.	When a cat is defensive, its body posture is crouched and eyes are dilated. The tails are tucked tight. It may hiss or growl.
