

Know 10 Trees

in Singapore!

Rain Tree

(*Samanea saman*)
Family: Fabaceae
(Leguminosae)

If you are ever walking by a road, look up! You may be looking at a **Rain Tree**.

Rain Trees are planted on the sides of roads in Singapore and give lots of shade. They can also grow up to nine storeys high!

DID YOU KNOW:

They are called **Rain Trees** because their leaves fold up in the early evening and before rainy weather.
