

Know 10 Trees

in Singapore!

Sea Almond (*Terminalia catappa*)

Family:
Combretaceae

Recognised by their pagoda shape,
Sea Almond trees grow by coasts
and can reach up to 10½ storeys
high!

Sea Almond leaves turn yellow,
orange and then red as they are
about to fall, making it almost feel
like autumn in Singapore.

DID YOU KNOW:

Sea Almonds have
almond-shaped fruits! The
edible seed kernels taste like
almonds, which explains their
name.
