

Know 10 Trees

in Singapore!

Trumpet Tree (*Tabebuia rosea*)

Family: Bignoniaceae

Trumpet Trees get their name from their trumpet-shaped flowers. They can grow up to seven-and-a-half storeys high.

During the **Trumpet Tree's** flowering season in the months of April and August, the whole tree is covered with flowers – an impressive sight!

DID YOU KNOW:

Even after the flowers fall from a **Trumpet Tree**, they keep their colours for a few days, forming a beautiful carpet around the tree.
