

# Key Information Package on New Application Process

# 5-stage submission to 2-stage submission

## Existing Application Process

## New Application Process

## New Application Process

- Applies to all new development projects submitted to NParks on or after 1 September 2020
- All greenery provisions, tree felling requests and reinstatement requirements within road reserve will be assessed and approved at the DC stage
- Applicants will be informed if the project requires a Planting Scheme submission and CSC application at the DC stage
- Applications for DC and CSC approvals will still be submitted through CORENET

## New Application Process

# Information To Be Submitted

- Details of External Works
  - QPs (Registered Architects and Professional Engineers) can choose to indicate scope of works under their respective purview on the same submitted plans

or

  - Attach separate plans in the DC application

Note: Both QPs can digitally sign on the submitted plans but lead QP is to submit the DC application

## Information To Be Submitted

- Planting Scheme For Development
  - Submit planting scheme via CORENET after obtaining DC approval and before making a CSC application
  - There must be **no change** to tree felling / conservation of existing trees and greenery provisions within development boundary **as approved at DC**
  - If there are **changes** to the plans approved at DC, these are to be regularised via a DC amendment application to NParks **before submission of Planting Scheme**
