

# NOTICE

Works have commenced for Land Transport Authority's North-South Corridor project for the area near Ang Mo Kio Town Garden West.

With this, a section of our garden will be closed and the pond removed. The footpath within the construction area has also been closed (marked in red) and an interim path has been constructed to ensure continued connectivity (marked in orange). Our garden continues to be open and accessible to all even during this construction period.

Thank you for your understanding.
