

Labrador Nature Reserve and Nature Park

Park Etiquette

On your journey of discovery, remember some simple tips to help make park visits enjoyable for everyone:

- Stay on trails designated on the map boards. By stepping off the trails, you risk disturbing and trampling on our flora and fauna.
- Appreciate wildlife from afar and keep a safe distance from them.
- Enjoy the flora and fauna in this park. Take home nothing but fond memories.
- Monkeys have been conditioned to associate plastic bags with food. Please do not eat or carry plastic bags in the presence of monkeys.
- For your own safety and that of others, no motorised vehicles, skates and skateboards are allowed in the park.

- Releasing of animals may cause more harm than good. They may not be able to adapt to the new environment and may not survive long after their release.
- Large groups of people tend to generate a lot of noise. Keep your groups small. If your group has more than 30 people, please apply for a permit prior to your visit.

It is our responsibility to conserve the living things in our park, both for your enjoyment and that of our future generations.

For the well-being of our native biodiversity, please abide by the Parks & Trees Act (Cap. 216).

For enquiries, please contact NParks helpline at 1800-4717300.
