

# Celebrating Ubin 2017

# Contents

Guided Walks  
and  
Happenings  
02

NParks and our partner organisations will be holding a variety of activities to celebrate Pulau Ubin's rich natural and cultural heritage.

Ranging from conservation to sport activities, this will encourage a greater appreciation of the island's heritage for generations to come.

Wayang Stage

## Tua Pek Kong Birthday (Chinese Opera)

Witness a cultural event as devotees celebrate the birthday of Tua Pek Kong annually, with week-long celebrations and traditional Chinese Opera.

6pm - 10pm

Free

14 May

Wayang Stage

## Tua Pek Kong Birthday (Getai Performances)

Enjoy Getai Performances with flamboyant singers dressed in colourful costumes, as the villagers of Pulau Ubin end the week-long Tua Pek Kong birthday celebration with a bang!

6pm - 10pm

Free

## Chek Jawa Wetlands Tour

Chek Jawa Information Kiosk

\$60/Group of 15 pax

Experience Chek Jawa's amazing natural heritage during a one-hour tour, led by our nature guides. The intertidal flats at Chek Jawa Wetlands are most suitable for visiting during low tide of 0.5 m and below, during which participants will be able to see most of the marine life.

## Naked Hermit Crab Walk

The Naked Hermit Crabs have been running these nature outing for small family and friend groups since 2007. Run by a small group of nature volunteer, to raise awareness of rich and fragile coastal ecosystems such as Chek Jawa. There are monitor lizards, fiddler crabs, spiders, rare plants, wild boar, mudskippers and lots of fruit trees. If we are lucky, might even spot the Oriental Pied Hornbill, White-bellied Sea Eagle and the giant Atlas Moth.

## Bird-Ringing Programme

Bird banding or bird ringing is a technique employed in the study of birds. Rings are carefully fitted to the legs of the birds by trained people. Each ring usually carries a unique identification in the form of an alpha-numeric combination inscribed on it as well as a contact address for notification should someone come across a bird with a ring.

The bird banding programme is vital as it provides up-to-date data for properly managing sites for conservation. The results of these studies will greatly contribute to the long-term conservation of the birds and their habitats.

9.30am -  
12.30pm

## Operation Deadline

Operation Deadline is an activity that targets the removal of stray fishing tackles and lines left by anglers in our mangroves, beaches and ponds. Examples of stray tackles include hooks, swivels, floater and spools. This is important because stray tackles and lines may ensnare wildlife, strangle plants, and pose a safety risk to members of the public.

## Mangrove Madness

Mangroves are unique ecosystems as they provide numerous important ecological services. They serve as nursery grounds for marine organisms and habitats for our native birds and reptiles. Today, mangrove forests are highly threatened globally due to increasing coastal developments and pollution issues. You can play an active role in coastal restoration efforts in Pulau Ubin by learning to identify different mangrove species and collecting plant propagules!
